Challenge of Law Reform Arthur T. Vanderbilt, 2015-12-08 Major crimes in the United States reached an all time high in 1954 exceeding the two million mark for the third successive year In spite of such groups as the famous Kefauver Committee organized crime continues to entrench itself in the cities Meanwhile amid public apathy the court calendars grow longer and justice is delayed Thousands of new laws are passed each year often without proper study so that no lawyer today can achieve real mastery of even one major branch of his profession In this little book literally a challenge Chief Justice Vanderbilt speaks out against these situations and abuses Drawing on his experience as Chief Justice under the reformed court system provided by the 1947 New Jersey Constitution he explains the need for reform the importance of judicial administration the problems of selecting judges and jurors and the importance of legal procedure In the matter of law reform he has long been known as a leader and fighter In his book originally delivered as the White Lectures at the University of Virginia Law School he asks his readers to meet the challenge of law reform Originally published in 1955 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Scope and Structure of Civil Codes Julio César Rivera, 2014-02-04 This detailed analysis of the content and configuration of civil codes in diverse jurisdictions also examines their relationship with some branches of private law as family law commercial law consumer law and private international law It analyzes the codification decodification and recodification processes illuminating the dialogue between current codes and private law legislation in general with Constitutions and International Conventions The

commentary elucidates the changing requirements of civil law as it shifted from an early protection of patrimony to a support for commercial and contractual law. It also explains the varying trajectories of civil law which in some jurisdictions was merged with religious legal tenets in its codification of familial relations while in others it was fused with commercial law or indeed codified from scratch as a discrete legal corpus. Elsewhere the volume provides material on differing approaches to consumer law where relevant legislation may be scattered across numerous statutes and also on private international law a topic of increasing relevance in a world where business corporations have interests in multiple jurisdictions and often play one off against another. The volume features invited contributions from leading scholars in the field of private law brought together for an in depth analysis of the current regulatory attitude in this field of the law in jurisdictions with diverse legal systems and traditions. In current times we are witnessing the adoption of diverging regulatory solutions. Through the analysis of the past and present of private law regulation the volume unveils the underlying trends and relevance of the codification method across the world.
