Chance A Perspective On Dada:

Chance, a Perspective on Dada Harriett Watts,1975 **Chance** ,1980 *Chance, a Perspective on Dada* Harriett Watts,1980 **Modernism - Dada - Postmodernism** Richard Sheppard,2000 Modernism Dada Postmodernism collects updates integrates and contextualizes the critic Richard Sheppard s essays on the historical avant garde Sheppard s topic in all of these essays is the modernist writers artists and philosophers linguistic and visual responses to a changed sense of reality and human nature Beginning with an overview of the problematics of European modernism Sheppard establishes the dialectical relationship between the cultural crisis that occurred during the period 1880 1936 and the different responses from European modernists and the avant garde With its combination of classic and new essays and its perspective on the theoretical avant garde modernism debate in the United States Sheppard s volume should give the specialist as well as the general reader an insight into the highest sample of European scholarly discourse on this subject Architectures of Chance Yeoryia Manolopoulou,2017-03-02 Architectural discourse and practice are dominated by a false dichotomy between design and chance and governed by the belief that the architect s role is to defend against the indeterminate In Architectures of Chance Yeoryia Manolopoulou challenges this position arguing for the need to develop a more creative understanding of chance as aesthetic experience and critical method and as a design practice in its own right Examining the role of experimental chance across film psychoanalysis philosophy fine art and performance this is the first book to comprehensively discuss the idea of chance in architecture and bring a rich array of innovative practices of chance to the attention of architects Wide ranging and through a symbiotic interplay of drawing and text Architectures of Chance makes illuminating reading for those interested in the process and experience of design and the poetics and ethics of chance and space in the overlapping fields of architecture and the aleatoric arts **Surrealism at Play** Susan Laxton,2019-02-14 In Surrealism at Play Susan Laxton writes a new history of surrealism in which she traces the centrality of play to the movement and its ongoing legacy For surrealist artists play took a consistent role in their aesthetic as they worked in with and against a post World War I world increasingly dominated by technology and functionalism Whether through exquisite corpse drawings Man Ray s rayographs or Joan Mir s visual puns surrealists became adept at developing techniques and processes designed to guarantee aleatory outcomes In embracing chance as the means to produce unforeseeable ends they shifted emphasis from final product to process challenging the disciplinary structures of industrial modernism As Laxton demonstrates play became a primary method through which surrealism refashioned artistic practice everyday experience and the nature of subjectivity The Visible Word Johanna Drucker,1994-06-25 Drucker skillfully traces the development of this critical position suggesting a methodology closer to the actual practices of the early avant garde artists based on a rereading of their critical and theoretical writings After reviewing theories of signification the production of meaning and materiality she analyzes the work of four poets active in the typographic experimentation of the 1910s and 1920s Ilia Zdanevich Filippo Marinetti

Guillaume Apollinaire and Tristan Tzara Drucker explores the context for experimental typography in terms of printing handwriting and other practices concerned with the visual representation of language Her book concludes with a brief look at the ways in which experimental techniques of the early avant garde were transformed in both literary work and in applications to commercial design throughout the 1920s and early 1930s **Dada** Leah Dickerman, Brigid Doherty, Centre Georges Pompidou, National Gallery of Art (U.S.), Museum of Modern Art (New York, N.Y.), 2005 Edited by Leah Dickerman Essays by Brigid Doherty Sabine T Kriebel Dorothea Dietrich Michael R Taylor Janine Mileaf and Matthew S Witkovsky Foreword by Earl A Powell III *Crisis and the Arts: The import of nothing : how Dada came, saw, and vanished in the Low Countries (1915-1929)* Stephen C. Foster, 1996 In examining Dada in the Low Countries Hubert van den Berg is faced with a complex situation that as much critiqued as embraced Dada Largely an individual affair and lacking the community center of Dada in Zurich Berlin and the other Dada capitals van den Berg focuses equally on Dada s reception and on its exercise Primarily a case of selective appropriation Dada in the Low Countries nevertheless possessed an international reach achieved in the relationships it posed between Dada and the Post World War I Constructivist International and De Stijl For the author Dada in Belgium and the Netherlands is less a case of its story than of specific cases of its use The involvement of Clement Pansaers Paul van Ostajen Theo van Doesburg and German artist Kurt Schwitters figure prominently in the historical mapping of van den Berg s complex and elusive subject **The Radical Use of Chance in 20th Century Art** Denis Lejeune, 2012-01 To many chance and art are antagonistic terms But a number of 20th century artists have turned this notion on its head by attempting to create artworks based on randomness Among those three in particular articulated a well argued and thorough theory of the radical use of chance in art Andr Breton writer John Cage composer and Fran ois Morellet visual artist The implications of such a move away from established aesthetics are far reaching as much in conceptual as in practical terms as this book hopes to make clear Of paramount importance in this coincidentia oppositorum is the suggested possibility of a correlation between the artistic use of chance and a system of thought itself organised around chance Indeed placing randomness at the centre of one s art may have deeper philosophical consequences than just on the aesthetical level Dada Surrealism , 1984 *Crisis and the Arts: Paris Dada, the barbarians storm the gates* Stephen C. Foster, 1996 Launches an eight volume series on the rebellious art form created during World War I by artists and writers in Zurich reacting to the horror of war the onslaught of new technology and the stifling aesthetics of futurism and cubism In 11 essays provides parameters for the historical and sociological context of the movement its manifestation in visual arts theater the media and literature the correspondence between the actual works and the various manifestos and the relevance of studying the phenomenon to present concerns Illustrated in black and white Annotation copyrighted by Book News Inc Portland OR *Dada in Paris* Michel Sanouillet, 2009 The long awaited publication in English of the definitive book on Paris Dada *Raoul Hausmann and Berlin Dada* Timothy O. Benson, 1987 **John Cage's Europeras 1 & 2** Laura Diane Kuhn, 1992

Crisis and the Arts: Exquisite Dada : a comprehensive bibliography Stephen C. Foster,1996 Despite the short life of the Dada movement it has provoked the interest of art historians museum directors and literary critics from all over the world The present volume comprises the literary texts of individual Dadaists and periodicals from all Dada centers as well as books articles exhibition catalogs and bibliographies by international scholars Jo rgen Scha fer s *Exquisite Dada* is the most exhaustive bibliography on Dada that has ever been compiled so far By giving a synopsis of some decades of scholarly research it provides an indispensable source for further studies on the matter Art Journal ,1980 Acta Historiae Artium ,1998 **Artbibliographies Modern** ,1997 **An ABC of Contemporary Reading** Richard Kostelanetz,1995
