The Purpose of Intervention Martha Finnemore,2013-01-15 Violence or the potential for violence is a fact of human existence Many societies including our own reward martial success or skill at arms The ways in which members of a particular society use force reveal a great deal about the nature of authority within the group and about its members priorities Martha Finnemore uses one type of force military intervention as a window onto the shifting character of international society She examines the changes over the past 400 years in why countries intervene militarily as well as in the ways they have intervened It is not the fact of intervention that has altered she says but rather the reasons for and meaning behind intervention the conventional understanding of the purposes for which states can and should use force Finnemore looks at three types of intervention collecting debts addressing humanitarian crises and acting against states perceived as threats to international peace In all three she finds that what is now considered obvious was vigorously contested or even rejected by people in earlier periods for well articulated and logical reasons A broad historical perspective allows her to explicate long term trends the steady erosion of force s normative value in international politics the growing

influence of equality norms in many aspects of global political life and the increasing importance of law in intervention practices
