**THE ILLUSION OF CHANGE** Adrian

Gabriel Dumitru, The real change will come only when you will accept it inside your soul There are so many books about

change or success that you will not have enough time to read them during this life time Sometimes looking for a huge

success that could complete our lives the change is just part of the script And success indeed can't come without the change

But what is the change Can you do it by yourself or you just need special help from different people Or maybe the real

change can come only from inside of us and the only real help as it to happen is to accept it not only want it Accept it as part

of your life Imagine that many years ago you had been poor but you dreamed to be rich And one day you become rich But the

funny question is do you accept the fact that you became rich There are so many people that they were poor and then they

became millionaires but soon after they lost everything again So they re became poor again They did not accepted the

change Could not integrate it in their life When change comes in small steps is much easier to accept it as part of our new life

When change comes suddenly we need to change our thinking right away and dare to see the whole scene of life in different

colors On the paths trough life we get lost We lose all our dreams one by another and we also lose ourselves also One day the

idea of change looks illusory and we wonder why we can't understand the fact that we are never happy anymore For a

beautiful life no matter if you are 20 30 40 50 or even 60 or 70 you just need a plan the plan for the change But the change

needs to be a positive one and not a collection of silly desires And if your life is miserable today small changes will make

almost no difference at all The change needs to be a process of dreaming big no matter what happens in your actual life But

you need to visualize and accept the future cause the real change means the break up from your past You will lose yourself

into this process and become a new you but if you really want a new you you will accept it

[Managing Change for Safety & Health Professionals](#) David F. Pierce, 1997-05-30 Pierce helps you take control of the dizzying process of effecting changing

procedures processes and attitudes in your company's safety and health program and then position your operations for
