Changing Of The Guards:

Changing of the Guards Alex Luscombe, Kevin Walby, Derek Silva, 2022-06-15 Although service outsourcing has spread throughout Canada's prisons and jails into its police courts and national security institutions and along the border in recent decades the expanding scope and pace of corporate involvement in criminal justice functions has not been closely investigated Changing of the Guards provides a comprehensive assessment of privatization and private influence across the twenty first century Canadian criminal justice system It illuminates the many consequences of public private arrangements for law and policy transparency accountability the administration of justice equity and public debate Within the contexts of policing sentencing imprisonment border control and national security the contributors explore crucial questions about legitimacy policy diffusion racism inequality corruption and democracy itself Changing of the Guards is a long overdue account of the social political and historical uniqueness of the Canadian criminal justice field and the key issues raised by this trenchant analysis are relevant both within and beyond Canada *A Changing of the Guard* Randall Bennett Woods, 1990 Between 1941 and 1946 in response to the devastation caused by World War II memories of the Great Depression and the prospect of Soviet expansion a group of politicians diplomats and economists in the United States and Great Britain sought to repair the ruined economies of Europe and secure economic prosperity for America Their program which became known as multilateralism called for reduced quotas on imports lowered tariffs the abandonment of currency exchange controls and economic decision making by international bodies Randall Woods explores this attempt to create an interdependent world economy and sets it against the broader political and strategic backdrop of the period In the United States multilateralism attracted New Deal liberals because it proposed to help not only the established economic interests but traditionally disadvantaged groups such as farmers and industrial workers as well Moderate socialists in Britain also lent their support to a liberalized trading system as did many conservatives on both sides of the Atlantic believing that the program would preserve some degree of free enterprise in the international economy Unfortunately for its disciples Woods argues multilateralism was so modified by the forces of isolationism and economic nationalism and by bureaucratic politics in the United States that it failed to achieve its economic and strategic goals The international economy that emerged after World War II was not an equitable partnership and merely finalized the fifty year process by which the United States supplanted Great Britain as the arbiter of Western Capitalism In the end modified multilateralism hampered rather than facilitated the free flow of goods and capital and it did little to promote social democracy
