ment explores the rise and fall of what was once the country's most progressive human rights legal regime and reveals how political divisions and social movements shaped the human rights state. This book is not only a testament to the revolutionary impact of human rights on Canadian law but also a reminder that it takes more than laws to effect transformative social change. *Women in Canada*, 1984 *Driven Apart* Annis May Timpson, 2001. From the outset of second wave feminism in Canada, women have advanced analyses of employment inequality that embrace their labour in both the public and domestic spheres. Through campaigns, task forces, and direct engagement with government departments, activists have argued that only when the Canadian state takes account of their roles as care providers can women's full potential as worker-citizens be realized. **International Books in Print**, 1997 Canadian Journal of Physics, 1993 Gender in Canada Adie Nelson, Barrie William Robinson, 2002 **Gender Relations in Canada** Janet Siltanen, Andrea Doucet, 2008. This text focuses on how gender differences and inequalities play out in the social lives of men and women throughout the life course. Theory is linked with practice through a series of case studies that highlight current research from Canada, the United States, Britain, and Australia. **Cahiers de la Femme**, 2002 **Citizen Politics** Joanna Marie Everitt, Brenda Lee O'Neill, 2002. The study of political behaviour in Canada has often focused largely on parties and voting. *Citizen Politics* seeks to expand that definition of political behaviour to encompass behaviouralism as a method of inquiry as well as a focus of inquiry which includes political culture, public opinion, voting, and elections, political participation, leaders and activists, and interest groups and social movements. In the past fifteen years since a Canadian political behaviour text was last published, the field has changed immensely, and this collection reflects these changes. Women are examined as independent political actors; the importance of the media to voting and elections is investigated; the uniqueness of immigrant and ethnic minority participation in Canadian politics is discussed; and new social movements are examined. Each section begins with an essay that synthesizes the important research and arguments that inform each subfield. These are followed by two or more essays of original contemporary research which inform students of critical new approaches and provide examples of how research in the field of political behaviour is conducted. The editors begin the volume with an essay that discusses what political behaviour is, how the study is done, and why it is important as a field of study, and they end the book with an examination of the state of the field in Canada today and an assessment of tomorrow's challenges. Délibérations Et Mémoires de la Société Royale Du Canada Royal Society of Canada, 1991 *Canadian Families 1900-2000* Benjamin Schlesinger, 2000. This partially annotated bibliography of 943 articles relating to Canadian Families covers the period from 1900-2000. The concept is unique in its attempt to give the reader an overview of what has been published in English on the major issues relating to Canadian Families during a century. Items in the bibliography are organized into 50 topical headings and include articles, books, reports, surveys, and other entries from published sources. Also included is a selection of relevant websites. An introductory essay highlights some of the major events relating to Canadian Families during the 1964-2000 period. Historical entries let the

reader examine what family life was like during the first 50 years of the 20th century An author index of 968 names allows for quick reference to specific bibliographic items Proceedings of the Social Statistics Section American Statistical Association. Social Statistics Section,1988 *Getting Started on Social Analysis in Canada* Michael Czerny, Jamie Swift, Robert Ganton Clarke,1994 Issues housing health environment unemployment energy conservation technology media aging natives women internationalism **Women's Equality, Demography and Public Policies** A. Heitlinger,1993-09-07 Rather than assuming as so many demographers and feminists have done that promoting women s equality and elevating birth rates is incompatible Alena Heitlinger argues that there is no inherently antagonistic relationship of this sort and that there may be mutually compatible pronatal and gender equality policies Based on comparative data from Canada Australia Britain and to a more limited extent the USA her study examines the impact of major international instruments promoting women s equality and national similarities and differences in women s policy machinery provision for maternity and childcare fiscal assistance for families with children and the costs and benefits of fertility related measures vis a vis immigration related measures The author concludes that broadly conceived measures to achieve equal opportunity can provide a new quite powerful justification for policies which in other contexts may be called pronatalist For the most part pronatalist intent has been non existent but the potential for higher fertility is significant
