Nils Petter Gleditsch,Olav Njølstad,1990-02 A long tradition of theoretical and empirical work has been devoted to the
question of the driving forces in the arms race since the 1960s This book takes up the internal factors of arms dynamics such
as bureaucratic politics interservice rivalry and the military industrial complex as well as external factors such as interactive
arms dynamics between the two superpowers It also deals with the question of technological determinism the ideas that what
is technically possible will be done as opposed to the idea that politics is in command Finally factors in the international
system affecting arms races are also examined such as long economic waves and power transitions *The Herald* ,2013
