Appendix Vergiliana:

On the Culex and other poems of the Appendix Vergiliana [by R. Ellis]. Robinson Ellis, 1882 *A Bodleian Ms. of Copa* Robinson Ellis, 1906 On the Culex and Other Poems of the Appendix Vergiliana Robinson Ellis, 1800 **Further Notes on the Ciris and Other Poems of the Appendix Vergiliana** Robinson Ellis, **Transactions and Proceedings of the American Philological Association** American Philological Association, 1923 Bibliographical record of works published by members of the Association in v 28 1897 *A Bodleian Ms. of Copa* Robinson Ellis, 2023-07-18 This fascinating manuscript offers an in depth study of the poems of the Appendix Vergiliana including the beloved Moretum With detailed commentary and analysis from noted scholar Robinson Ellis this manuscript is a must read for anyone interested in the poetry of ancient Rome This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Poems without Poets** Boris Kayachev, 2021-03-31 The canon of classical Greek and Latin poetry is built around big names with Homer and Virgil at the center but many ancient poems survive without a firm ascription to a known author This negative category anonymity ties together texts as different as for instance the orally derived Homeric Hymns and the learned interpolation that is the Helen episode in Aeneid 2 but they all have in common that they have been maltreated in various ways consciously or through neglect by generations of readers and scholars ancient as well as modern These accumulated layers of obliteration which can manifest for instance in textual distortions or aesthetic condemnation make it all but impossible to access anonymous poems in their pristine shape and context The essays collected in this volume attempt each in its own way to disentangle the bundles of historically accreted uncertainties and misconceptions that affect individual anonymous texts including pseudepigrapha ascribed to Homer Manetho Virgil and Tibullus literary and inscribed epigrams and unattributed fragments Poems without Poets will be of interest to students and scholars working on any anonymous ancient texts but also to readers seeking an introduction to classical poetry beyond the limits of the established canon **A Study of the Maecenas Elegies in the Appendix Vergiliana. August 1927** Ruth Wentworth Brown, 1927 **Dirae - A Poem from the Appendix Vergiliana** Boris Kayachev, 2024-12-31 The Dirae is a curse uttered in bucolic hexameters by an Italian farmer against his former estate confiscated to enable the settlement of Caesarian veterans in the aftermath of the battle of Philippi this commentary is the first work in eighty years to offer a systematic exploration of the poem within the literary and historical context of the Late Republic At the heart of the volume is a freshly edited Latin text based on a thorough reappraisal of manuscript evidence and

earlier textual scholarship which in particular aims to restore the poems stanzaic organisation gravely distorted in the course of transmission Besides providing an account of the manuscripts and an overview of the poems structure and contents the introduction discusses at length the Diraes engagement with other poetic texts and traditions first of all with its sibling the Lydia but also crucially with Greek bucolic before considering its reception in Virgils Eclogues and later Augustan poetry it sheds new light too on the Diraes links with Hellenistic curse poetry and with the ritual tradition of inscribed curses Endorsing a composition period shortly after the poems dramatic date springsummer of 41 BC and tentatively reviving the old attribution to Valerius Cato the introduction also explores the Diraes engagement with the political events and narratives of one of the most dramatic moments of Roman history The line by line commentary provides exegesis of the poems textual linguistic literary and historical aspects with the English translation offering a further point of orientation Appendix Vergiliana. [Containing the Culex, Dirae, Copa, Aetna, Etc.]. Virgil, 1880 **The Rhetoric of the Roman Fake** Irene Peirano, 2012-08-16 An in depth analysis of Roman literary fakes offering new insights into the creative dynamics of spurious literature Ciris , 2020-12-31 The Ciris is a small scale epic poem which relates the myth of Scylla daughter of king Nisus of Megara who betrayed her homeland for love and was transformed into a sea bird It is one of the poems in the Appendix Vergiliana a collection that has been ascribed to Virgil as his carmina minora Earlier scholarship has mostly been concerned to prove that the Ciris is not by Virgil and then to demonstrate that it is a late and derivative composition of little intrinsic merit The present book argues that Ciris was composed by a contemporary of Virgil a product of the golden age of Latin poetry It aims to bring the poem to the attention of modern readers and to rescue it from ill deserved neglect The introduction presents detailed linguistic literary and historical arguments in support of this early composition date and offers a state of the art account of the textual witnesses and the manuscript tradition The critical text and apparatus are based on a systematic first hand analysis of manuscript evidence as well as the rigorous application of text critical methods The new text as close to the original Ciris as can be achieved includes over one hundred and fifty changes from previous editions By engaging with textual scholarship on the poem from the fifteenth to the twenty first century the line by line commentary provides a comprehensive guide to the numerous textual problems and is an important contribution to the stylistic and linguistic analysis of golden age Latin poetry Constructing Authors and Readers in the Appendices Vergiliana, Tibulliana, and Ovidiana Tristan E. Franklino, Laurel Fulkerson, 2020-08-27 The Augustan period in Rome was a golden age for poetry and also the age in which the cult of the author began in the west By examining some early poetic understandings of what it might have meant to be Vergil Ovid and Tibullus Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana explores what those authors meant to near contemporaries and what the construction of authorship they were a part of meant to the later western tradition Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana takes its starting point from the Appendices attached to three major Augustan poets exploring how their different

conditions of production and the differences between their authorising authors result in different notions of what an appendical text ought to contain So for instance Vergil s biography leaves ample room for juvenilia while Ovid s does not the Tibullan appendix explicitly engages with a wider poetic community Moving beyond questions of forgery and deception some chapters ask how we would be able to know the difference between texts of genuine and of disputed authorship given that most of the stylistic features that distinguish authors are replicable Other chapters make the case for re evaluation of poems that have been neglected or disparaged and still others make sense of individual works in their likely context of composition The volume is the first to treat in conjunction the majority of the appendical works ascribed to Vergil Ovid and Tibullus and to draw connections across corpora

A Bodleian Ms. Of Copa, Moretum, and Other Robinson Ellis, 2015-07-19 Excerpt from A Bodleian Ms Of Copa Moretum and Other Poems of the Appendix Vergiliana Est et Non and Moretum sparse on Uir bonus the least interesting of the group and the easiest Many of them seem traceable to an early source as they coincide with glosses in the tenth century Ms Vat 1577 recently published by the Catanian editor Curcio This is in Copa for the glosses which the same scholar has edited from Vat 1574 cent xi or xii on Moretum only occasionally agree with those in the Digby Ms and go back to a different origin Our Ms may fairly stand as a representative type of medieval commentaries on Latin poems With much that is right and good it contains not a little that is doubtful or even wrong But it is not difficult to discriminate the grain from the chaff as a few samples will be sufficient to show Copa 2 crispum is glossed i nimis mobile uel crispum dicit propter vestes crispatas et collectas circa lotus et renes The first of these explanations is right and corresponds with Vat 1577 where crispum is glossed tremulum The second explanation which refers it to the motion of the Copa srobe is far fetched and improbable Copa 6 bibulo toro Digby 100 has bibulo i ubi satis biberes uel bibulo i molli quia tykjiUs culcetra que bibit et absorbet kominem dura uero repellit uel bibulo dicit propter arenam que bibula est ubi torus ille sternebatur The first of these agrees with Scaliger s interpretation the second is impossible the third is recondite and in my opinion points to an early source though undoubtedly wrong 15 libata is glossed collecta and Achdois filia Acheloy Vat 1577 has this latter gloss in an expanded form copia filia acheloy in which Copia is not a mistake for Copay but either a perversion or a more definite version of the story mentioned by the second of Bodes Mythographers p 131 that the horn which Hercules broke off from the head of the river god Achelous was consecrated by him to Fortune and was afterwards filled with autumnal supplies copiis by Naiads the daughters of the river About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

A History of Roman Literature Michael von

Albrecht,1997 *A History of Roman Literature (2 vols.)* M. von Albrecht,2019-09-16 Michael von Albrecht's *A History of Roman Literature* originally published in German can rightly be seen as the long awaited counterpart to Albin Lesky's *Geschichte der Griechischen Literatur* In what will probably be the last survey made by a single scholar the whole of Latin literature from Livius Andronicus up to Boethius comes to the fore Literature is taken here in its broad antique sense and therefore also includes e.g rhetoric philosophy and history Special attention has been given to the influence of Latin literature on subsequent centuries down to our own days Extensive indices give access to this monument of learning The introductions in Von Albrecht's texts together with the large bibliographies make further study both more fruitful and easy

Pamphlets on the Appendix Vergiliana and the Aeneid Robert Benson Steele,193? Forgery Beyond Deceit John North Hopkins,Scott McGill,2023-05-30 What do forgeries do Forgery Beyond Deceit Fabrication Value and the Desire for Ancient Rome explores that question with a focus on forgery in ancient Rome and of ancient Rome Its chapters reach from antiquity to the twentieth century and cover literature and art the two areas that predominate in forgery studies as well as the forgery of physical books coins and religious relics The book examines the cultural historical and rhetorical functions of forgery that extend beyond the desire to deceive and profit It analyses forgery in connection with related phenomena like pseudepigraphy fakes and copies and it investigates the aesthetic and historical value that forgeries possess when scholarship takes seriously their form content and varied uses within and across cultures Of particular interest is the way that forgeries embody a desire for the ancient and for the recovery of the fragmentary past of ancient Rome **The Authenticity of the "Virgilian"**
