Industrial Surface Coating for Appliances Standards ,1982 *Advanced Data Acquisition and Intelligent Data Processing*
Vladimir Haasz,Kurosh Madani,2022-09-01 DAQ and data processing is a basic part of all automated production systems
diagnostic systems watching over quality of production energy distribution transport control or in various other areas
Demands on the speed accuracy and reliability increase in general It is possible to achieve not only using superior but also
more expensive hardware but also applying advanced data acquisition and intelligent data processing It deals e g optimal
data fusion of a number of sensors new stochastic methods for accuracy increasing new algorithms for acceleration of data
processing etc These are the grounds for publishing this book *Advanced Data Acquisition and Intelligent Data Processing*
offers 10 up to date examples of different applications of advanced data acquisition and intelligent data processing used in
monitoring measuring and diagnostics systems The book arose based on the most interesting papers from this area published
at IDAACS 2013 conference However the individual chapters include not only designed solution in wider context but also
relevant theoretical parts achieved results and possible future ways Technical topics discussed in this book include advanced
methods of data acquisition in application that are not routine measured data fusion using up to date advanced data
processing nonlinear dynamical systems identification multidimensional image processing *Advanced Data Acquisition and
Intelligent Data Processing* is ideal for personnel of firms deals with advanced instrumentation energy consumption
