Lynch, 2019-04-08 Defense plant cutbacks and military base closures have affected hundreds of U S communities during the past twenty five years Tracing the recovery of four communities after large defense plant cutbacks and of one hundred communities after military base closures the contributors analyze the transition from the production of military to civilian goods The contributors examine the market potential of reusing defense industrial plants to produce civilian products within the one to two year period called for by economic conversion proponents showing that the complex process needed to develop test and market an entirely new product requires a minimum of five years They also review the wide range of economic development techniques available at the state and local level conversion approaches in Western Europe programs for displaced workers and reasons why the economic conversion approach has failed to attract public support in the United States The case studies are used to formulate an integrated composite approach for coping with plant closures and major employment dislocations Stressing the importance of community based economic adjustment activities this book will be valuable to all concerned with mitigating the effects of military and civilian plant closures The Dependent City Revisited Paul Kantor, 2019-07-11 Here is a book that makes sense of the L A riots homelessness tax giveaways and the other big urban issues that are back in the national spotlight In this streamlined and updated new edition of his classic book The Dependent City Paul Kantor now focuses on economic development and social welfare policies to reveal the key dilemmas of American urban politics Returning to a political economy theme Kantor explores how city governments have struggled to escape and accommodate the reality of their economic dependency in the policies that they've pursued Revisiting cities across the nation Kantor finds not only that they have become more dependent but also that the character of this dependency has changed and deepened Exploring local regimes in the Frostbelt and Sunbelt and in suburbia he finds that they frequently act more like captives of big business rather than as representatives of citizens Local attempts to promote social justice increasingly run up against a wall of economic dependency created by federal policies and business power This book signals how American cities can find ways of overcoming this dependency by working together with states and the federal government to promote healthy democratic urban politics The Dependent City Revisited is an accessible provocative supplement for a wide variety of courses in urban studies and political economy as well as stimulating reading for anyone who is interested in understanding America's urban mosaic Planning in Taiwan Roger Bristow, 2010-05-04 Provides a history of planning in Taiwan and situates

contemporary Taiwanese planning in the wider global context The book then covers challenges to planning urban change legal planning land problems the development of industrial land community planning conservation ecological land use planning for natural disasters and transportation planning Land governance, integrated socio-ecosystem and sustainable development Chen Zeng, Zhen Wang, Wenping Liu, Qingsong He, Yan Song, Wenting Zhang, 2023-06-23 *Getting by in Hard Times* David Livingstone, Meg Luxton, June Shirley Corman, 2001-01-01 Describes the experiences of daily life for predominantly white working class women and men during the period of economic restructuring begun in the 1980s
