Software Prototyping in Data and Knowledge Engineering G. Guida,G. Lamperti,Marina Zanella,2013-03-07 This monograph describes an innovative prototyping framework for data and knowledge intensive systems The proposed approach will prove especially useful for advanced and research oriented projects that aim to develop a traditional database perspective into fully fledged advanced database approaches and knowledge engineering technologies The book is organised in two parts The first part comprising chapters 1 to 4 provides an introduction to the concept of prototyping to database and knowledge based technologies and to the main issues involved in the integration of data and knowledge engineering The second part comprising chapters 5 to 12 illustrates the proposed approach in technical detail Audience This volume will be of interest to researchers in the field of databases and knowledge engineering in general and for software designers and knowledge engineers who aim to expand their expertise in data and knowledge intensive systems

Computer Programming to Insure Project Accountability in Africa Abdul Karim Bangura,2001 This is the first book of its kind to offer a series of computer programming models for the practical purpose of insuring project accountability in African countries Despite its practicality the book is also theoretically well grounded By doing so it seeks to extend the epistemological boundaries of both Computer Science and Economics It is therefore useful for students and teachers in those disciplines and for policy makers and practitioners in the field of economic development

Multiset Processing Christian S. Calude,Gheorghe Paun,Grzegorz Rozenberg,Arto Salomaa,2001-01-01 The multiset as a set with multiplicities associated with its elements in the form of natural numbers is a notation which has appeared again and again in various areas of mathematics and computer science As a data structure multisets stand in between strings lists where a linear ordering of symbols items is present and sets where no ordering and no multiplicity is considered This book presents a selection of thoroughly reviewed revised full papers contributed to a workshop on multisets held in Curtea de Arges Romania in August 2000 together with especially commissioned papers All in all the book assesses the state of the art of the notion of multisets the mathematical background and the computer science and molecular computing relevance

Database and Expert Systems Applications A Min Tjoa,Roland Wagner,2012-12-06 Use and development of database and expert systems can be found in all fields of computer science The aim of this book is to present a large spectrum of already implemented or

just being developed database and expert systems Contributions cover new requirements concepts for implementations e.g languages models storage structures management of meta data system architectures and experiences gained by using traditional databases in as many areas of applications as possible at least in the fields listed The aim of the book is to inspire a fruitful dialogue between development in practice users of database and expert systems and scientists working in the field
