academic writing in different cultural contexts This book takes a textlinguistic approach and contrasts academic journal articles in a large and dominant culture Anglo American a small and peripheral one Finnish and the intercultural products of the small culture members writing in the dominant language Finns in English The results indicate that academics do have culture specific writing styles and that textlinguistic tools are crucial if we want to expand our understanding of written communication

The Practice of Cultural Analysis Mieke Bal, 2022 This volume presents an interdisciplinary approach to humanistic scholarship one that can be situated somewhere between cultural studies and cultural history while being more specific than either Cultural analysis as a critical practice is based on a keen awareness of the critic's situatedness in the present the social and cultural present from which we look and look back at objects that are already of the past objects that we take to define our present culture Thus it can be summarized by the phrase cultural memory in the present Far from being indifferent to history cultural analysis is devoted to understanding the past as part of the present as what we have around us The essays gathered here represent the current state of an emerging field of inquiry At the same time they suggest to the larger academic world what cultural analysis can and should do or be as an interdisciplinary practice The challenge for this volume is to counter the common assumption that interdisciplinarity makes the object of inquiry vague and the methodology muddled In meeting that challenge it offers close textual and visual readings of subjects ranging from Vermeer to abstract expressionism from the Book of Ruth to Djuna Barnes's *Nightwood* from the history of cinema to popular culture in Zaire The essays in Part I Don't Look Now Visual Memory in the Present explore in detailed case studies centered on the theme of visibility or looking the tricky consequences of the uncertainties regarding history that the presentness of the past entails Part II Close ups and Mirrors The Return of Close Reading with a Difference demonstrates and advocates listening to the object without the New Critical caveat that claims the text speaks for itself Instead the essays create the kind of dialogical situation that is a major characteristic of cultural analysis the text does not speak for itself but it does speak back The essays in Part III Method Matters Reflections on the Identity of Cultural Analysis do not propose any directions for use or authoritative statements on how to do cultural analysis Arranged in pairs of opposites the essays represent the kind of fruitful tension that stimulates debate Though no definite answers are proposed and conflicting views are left in conflict the essays stimulate a self reflection on cultural analysis its practices and its understandings
