- Culture - a set of shared meanings identified by customs and artifacts.
- Metaphor - an object used to substitute for another in order to understand the other.
- Cultural metaphor - a method involving the identification of some phenomenon, activity or institution of a nation's culture that most of its members consider very important and with which they identify cognitively and/or emotionally which then becomes the basis for describing and understanding the essential features of the society (Gannon, 2004:7).

n K vecses proposes a new theory of metaphor variation First he identifies the major dimension of metaphor variation that is those social and cultural boundaries that signal discontinuities in human experience Second he describes which components or aspects of conceptual metaphor are involved in metaphor variation and how they are involved Third he isolates the main causes of metaphor variation Fourth Professor K vecses addresses the issue to the degree of cultural coherence in the interplay among conceptual metaphors embodiment and causes of metaphor variation *A Semantic and Logical Analysis of Kpelle Proverb Metaphors of Secrecy* William Peter Murphy,1976 **A Summary of Intercultural Instruments Highlighting the Achievement of Total Intercultural Synergy** Gebhard Deissler,2012-04-17 Scientific Study from the year 2012 in the subject Business economics Business Management Corporate Governance course global management language English abstract The study provides and overview of intercultural management instruments while it hihglights a method for the achievement of high level intercultural synergy Metaphors of Aging in Science and the Humanities Gary M.
