

The background of the book cover is a photograph of a rice paddy field. In the foreground, several people are wading through shallow, muddy water, likely engaged in agricultural work. The water is calm, reflecting the sky and the surrounding greenery. In the background, there are rolling green hills under a clear blue sky. The overall scene depicts a rural, agricultural setting.

Cultural Anthropology Fred Plog, Daniel G. Bates, 1976 Cultural Anthropology Fred Plog, 1976 *Intercultural Communication and Public Policy* Ngozi Iheanacho, 2016-07-25 As there are different races and people in the world so there are different cultures meaning that cultural diversity is inevitable Through human contact and association cultures meet In such meetings every individual and culture projects itself as worthy and should be held in high esteem In today's world it is not encouraging to be ethnocentric always taking action or inactions that crystallize and project a feeling of one's own culture or racial superiority Such attitude obstructs meaningful interaction human relations tolerance and cooperation Conversely the skill and ability to tolerate and communicate effectively with people from diverse cultures is a social activity which begins from thought to behaviour in both spoken and non spoken versions The book contains 19 essays structured into five parts Cultural Anthropology Conrad Phillip Kottak, 2006 Accompanying CD ROM contains 25 succinct video clips each corresponding to a chapter in the textbook Each clip is accompanied by a text overview and probing questions to exercise the student's critical thinking skills Page 4 of cover **The Teaching of Anthropology** Conrad Phillip Kottak, 1997 This collection brings together articles first developed for the symposia on teaching held by the American Anthropological Association in 1990 1991 and 1992 as well as additional papers from over 40 leading teachers in the field The articles span the educational continuum from teaching the introductory course to teaching pre-collegiate instructors As a professional reference text it is a book that no current or future teacher of anthropology should be without *Oral Tradition and Synoptic Verbal Agreement* Travis Derico, 2016-06-28 New Testament scholars routinely claim that verbal agreement among parallel Synoptic pericopae is a reliable indicator of literary borrowing by the Synoptic Evangelists In *Oral Tradition and Synoptic Verbal Agreement* T M Derico presents a critical assessment of that claim through a consideration of the most recent empirical evidence concerning the kinds and amounts of verbal agreement that can be produced among independent performances of oral traditions **Paperbound Books in Print**, 1992 The Cultural Dimension of Global Business (1-download) Gary Ferraro, Elizabeth K. Brody, 2015-07-22 This book demonstrates how the theories and insights of anthropology have positively influenced the conduct of global business and commerce providing a foundation for understanding the impact of culture on global business and global business on culture *Assessing Cultural Anthropology* Robert Borofsky, 1994 Assesses current theories and approaches in anthropology and envisages future directions of the discipline Contributors include Clifford Geertz Roy Rappaport and Eric Wolf Contemporary theory is emphasized in the text Research Methods for International Human Rights Law Damian Gonzalez-Salzburg, Loveday Hodson, 2019-06-13 The study and teaching of international human rights law is dominated by the doctrinal method A wealth of alternative approaches exists but they tend to be discussed in isolation from one another This collection focuses on cross-theoretical discussion that brings together an array of different analytical methods and theoretical lenses that can be used for

conducting research within the field As such it provides a coherent accessible and diverse account of key theories and methods A distinctive feature of this collection is that it adopts a grounded approach to international human rights law through demonstrating the application of specific research methods to individual case studies By applying the approach under discussion to a concrete case it is possible to better appreciate the multiple understandings of international human rights law that are missed when the field is only comprehended through the doctrinal method Furthermore since every contribution follows the same uniform structure this allows for fruitful comparison between different approaches to the study of our discipline
