Cultural Pluralism And Moral Knowledge:

Cultural Pluralism and Moral Knowledge Ellen Frankel Paul, Fred Dycus Miller, 1994 The essays in *Cultural Pluralism and Moral Knowledge* deal with philosophical issues that arise from the existence of a diversity of cultural traditions The discussions range from broad examinations of the relevance of cultural pluralism to morality to studies of specific cultural practices Some essays explore the relationship between pluralism and political theory some contrast pluralism with relativism or distinguish it from reasonable disagreement Others propose and defend a set of principles that apply to all societies forming the foundation of a common moral system Still others delve into questions of moral psychology attempting to explain why people hold the values they do

Cultural Pluralism and Moral Knowledge, 1994 *Moral Disagreements* Christopher W. Gowans, 2013-04-03 Can moral disagreements be rationally resolved Can universal human rights be defended in face of moral disagreements The problem of moral disagreement is one of the central problems in moral thinking It also provides a stimulating stepping stone to some of the perennial problems of philosophy such as relativism scepticism and objectivity *Moral Disagreements* is the first anthology to bring together classic and contemporary readings on this key topic Clearly divided into five parts The Historical Debate Voices from Anthropology Challenges to Moral Objectivity Defenses of Moral Objectivity and New Directions the anthology presents readings from the following key thinkers Sextus Empiricus Chagnon Wong MacIntyre Aquinas Shweder Brink Rawls Montaigne Turner Nussbaum Narayan Hume Mackie Gewirth Nietzsche Williams Berlin A distinctive feature of the anthology is that it brings philosophers into dialogue with well known anthropologists Also included is a comprehensive introduction by Christopher Gowans introducing the problem of moral disagreement to those coming to the topic for the first time

[Moral Knowledge](#) Ellen Frankel Paul, Fred Dycus Miller, Jeffrey Paul, 2001 Philosophers since ancient times have pondered how we can know whether moral claims are true or false The first half of the twentieth century witnessed widespread skepticism concerning the possibility of moral knowledge Indeed some argued that moral statements lacked cognitive content altogether because they were not susceptible to empirical verification The British philosopher A J Ayer contends that They are pure expressions of feeling and as such do not come under the category of truth and falsehood They are unverifiable because they do not express genuine propositions The second half of the twentieth century brought a revival of interest among philosophers in moral and political questions Whether or not ethics can be founded upon a rational basis continues to preoccupy the philosophical community even now

Moral Knowledge? Walter Sinnott-Armstrong, Mark Timmons, 1996 *Moral Knowledge* is a collection of specially commissioned papers each presenting a major position within the field of moral epistemology Chapters start by introducing readers to the position the author defends locating this position vis vis competing views and explaining technical vocabulary before arguing that position Topics covered include moral skepticism moral truth projectivism contractarianism coherentism feminist views quasi realism and pragmatism Most authors are established philosophers in the field

& Ploughshares, 2002 Human Rights and Responsibilities in the World Religions Joseph Runzo, Nancy M. Martin, Arvind Sharma, 2003-08 In this text some of the world's greatest philosophers and scholars of religion have merged to consider the role played by the world religions in mediating and promoting human rights **Moral Understandings** Margaret Urban Walker, 2007 *Pragmatic Naturalism & Realism* John R. Shook, 2003 Pragmatism the philosophy native to America has once again grown to prominence in philosophical debate around the world Today the type of pragmatism that is proving to be of greatest value for fostering discussions with other worldviews is pragmatic naturalism The fourteen provocative essays in this original collection are all by philosophers who describe themselves as pragmatic naturalists and who are active in the present day revival of American pragmatism Pragmatic naturalism like all varieties of pragmatism steers clear of the extreme intellectualism too often found in philosophy Pragmatic naturalism stresses that genuine inquiry must be conducted in a consistently empirical manner and be responsive to real human problems It also contends that the sciences and their methodologies are superior to other modes of inquiry into the human environment Despite the curious fact that pragmatism is often taken to be opposed to realism the essays in this volume assert the interdependence of pragmatism with some type of realistic metaphysical stance As such they advance the debates over the question of realism by uncovering and investigating the deepest assumptions running through recent Anglo American philosophy This excellent collection of high quality essays on a resurgent school of American philosophy will be of interest to philosophers as well as scholars in the natural and social sciences **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 1924 An international journal of general philosophy State, Society, and Human Rights in South Asia Stig Toft Madsen, 1996 PART 1 HUMAN RIGHTS AND SOUTH ASIA *TLS, the Times Literary Supplement*, 1996

Proceedings of the Aristotelian Society for the Systematic Study of Philosophy Aristotelian Society (Great Britain), 2004 Includes Report of the executive committee for 1887-88 1914-15 list of members in each volume The Philosopher's Index, 2009 Vols for 1969 include a section of abstracts **Moral Geographies** David Marshall Smith, 2000 This book explores the interface between geography ethics and morality It considers questions that have haunted the past are subjects of controversy in the present and which affect the future Does distance diminish responsibility Should we interfere with the lives of those we do not know Is there a distinction between private and public space Which values and morals if any are absolute and which cultural communal or personal And are universal rights consistent with respect for difference David Smith shows how these questions play themselves out in politics planning development social and personal relations the exploitation of resources and competition for territory After introducing the essential elements of moral philosophy from Plato to postmodernism he examines the moral significance of concepts of landscape location and place proximity distance and community space and territory justice and nature He is concerned above all with the morality people practice to see how this varies according to geographical context and to assess the inevitability of its outcomes His argument

is seamlessly interwoven with everyday observation and vividly described case studies the latter include genocide and rescue during the Holocaust the conflicts over space between Israel and Palestine and within Israel itself and the social tensions and aspirations in post apartheid South Africa The meaning possibility and limits of social justice lie at the heart of the book That geographical context is vital to the understanding of moral practice and ethical theory is its central proposition The book is clearly and engagingly written The author has a student readership in mind but his book will appeal widely to geographers and others involved in planning development politics social theory and the analysis of the contemporary world **Journal of the Philosophy of Sport** ,2003 **Meta-ethics, Moral Objectivity and Law** Veronica Rodriguez-Blanco,2004 The book shows the relevance of meta ethical and metaphysical considerations to determine the nature of law and the connection between objective moral and legal judgements The investigation analyses the legal theories of Ronald Dworkin Jürgen Habermas and Michael Moore The conclusion of the scrutiny is that the discussed views fail to explain the plausible links between objective moral and legal judgements The lesson to learn from the failure of these philosophical perspectives is that we need to revise fundamental meta ethical conceptions within law In addition to the view that meta ethical and metaphysical considerations play a central role in our understanding of objective moral and legal judgements we enforce the idea that it is necessary to revise our meta ethical and metaphysical premises in jurisprudence Epistemic and meta ethical abstinence in legal theory in this way is challenged by a number of criticisms The outcome of our reflection is that in legal theory as in many other disciplines we need to take truth and objectivity seriously **Religion & Literature** ,1994 The Journal of Philosophy ,1994 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933 *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,1994 List of members in v 1
