Theorizing Cultural Work Mark Banks,Rosalind Gill,Stephanie Taylor,2014-04-11 In recent years cultural work has engaged the interest of scholars from a broad range of social science and humanities disciplines The debate in this turn to cultural work has largely been based around evaluating its advantages and disadvantages its freedoms and its constraints its informal but precarious nature the inequalities within its global workforce and the blurring of work life boundaries leading to self exploitation While academic critics have persuasively challenged more optimistic accounts of converged worlds of creative production the critical debate on cultural work has itself leant heavily towards suggesting a profoundly new confluence of forces and effects Theorizing Cultural Work instead views cultural work through a specifically historicized and temporal lens to ask what novelty can we actually attach to current conditions and precisely what relation does cultural work have to social precedent The contributors to this volume also explore current transformations and future s of work within the cultural and creative industries as they move into an

uncertain future This book challenges more affirmative and proselytising industry and academic perspectives and the pervasive cult of novelty that surrounds them to locate cultural work as an historically and geographically situated process It will be of interest to students and scholars of sociology cultural studies human geography urban studies and industrial relations as well as management and business studies cultural and economic policy and development government and planning

The Politics of Cultural Work M. Banks,2007-11-09 Through a wide ranging study of labour in the cultural industries this book critically evaluates how various sociological traditions including critical theory governmentality and liberal democratic approaches have sought to theorize the creative cultural worker in art music media and design based occupations

Cultural Policy and Industries of Identity Devin Beaugard,2018-02-21 This book explores the cultural policies of sub states with strong nationalist inclinations in particular Qu bec Scotland and Catalonia and their trend in recent years towards promoting and supporting the cultural industries as a means of not just preserving their respective cultural identities but of growing them This represents a paradigm shift from the traditional discourse around cultural policy which often posits that concepts of identity fall under the purview of heritage institutions and organizations not that of industries Drawing on the work of Boltanski and Th venot notably their economies of worth framework this book develops a typological analysis of cultural policy Specifically this book seeks to fill a gap in the cultural policy and cultural studies literature where identity and the cultural industries are concerned expanding on the role of the cultural industries in the development of identity and the implications it has for

cultural policy Corporations and Cultural Industries Scott W. Fitzgerald,2012-01-01 Corporations and Cultural Industries Time Warner Bertelsmann and News Corporation by Scott Warren Fitzgerald fills an important neglected area in communication and media studies through its sustained theoretically grounded and empirically rich analysis of three of the most important global media conglomerates of our time Time Warner Bertelsmann and News Corp The book examines how financialization processes regear the internal operations of media corporations in a manner that pits one sector against another **Routledge Companion to the Cultural Industries** ,2015 **Creating Economy** Barbara Townley,Philip Roscoe,Nicola Searle,2019-01-10 Creativity is at the vanguard of contemporary capitalism valorised as a form of capital in its own right It is the centrepiece of the vaunted creative economy the creative industries and is increasingly a focus of public policy But what is economic about creativity How can creative labour become the basis for a distinctive global industry And how has the solitary artist a figment of the romantic thought become the creative entrepreneur of twenty first century economic imagining This book offers a fresh approach to this topic within the creative industries through a focus on intellectual property It follows IP and its associated rights IPR through the creative economy showing how it shapes creative products and configures the economic agency of creative producers IP helps to manage risk settle what is valuable extract revenues and protect future profits It is the central mechanism in organising the market for creative goods Most importantly it shows that IP IPR is crucial in the dialectic between symbolic and economic value on which the creative industries depend IP IPR hold the creative industries together This book is based on a detailed empirical study of creative producers in the UK extending the sociological studies of markets to an analysis of the UK s creative industries In doing so it makes an important empirically grounded contribution to debates around creativity entrepreneurship and uncertainty in creative industries and will be of interest to scholars and policymakers alike Creative Labour David Hesmondhalgh,Sarah Baker,2013-01-11 What is it like to work in the media Are media jobs more creative than those in other sectors To answer these questions this book explores the creative industries using a combination of original research and a synthesis of existing studies Through its close analysis of key issues such as tensions between commerce and creativity the conditions and experiences of workers alienation autonomy self realization emotional and affective labour self exploitation and how possible it might be to produce good work Creative Labour makes a major contribution to our understanding of the media of work and of social and cultural change In addition the book undertakes an extensive exploration of the creative industries spanning numerous sectors including television music and journalism This book provides a comprehensive and accessible account of life in the creative industries in the twenty first century It is a major piece of research and a valuable study aid for both undergraduate and postgraduate students of subjects including business and management studies sociology of work sociology of culture and media and communications Creative Justice Mark Banks,2017-01-30 Creative Justice examines issues of inequality and injustice in the cultural industries and cultural workplace It first aims to do justice to the kinds of objects and texts produced

by artists musicians designers and other kinds of symbol makers by appreciating them as meaningful goods with objective qualities It also shows how cultural work itself has objective quality as a rewarding and socially engaging practice and not just a means to an economic end But this book is also about injustice made evident in the workings of arts education and cultural policy and through the inequities and degradations of cultural work In worlds where low pay and wage inequality are endemic and where access to the best cultural academies jobs and positions is becoming more strongly determined by social background what chance do ordinary people have of obtaining their own creative justice Aimed at students and scholars across a range of disciplines including Sociology Media and Communication Cultural Studies Critical Management Studies and Human Geography Creative Justice examines the evidence for and proposes some solutions to the problem of obtaining fairer and more equalitarian systems of arts and cultural work

Cultural Work and Higher Education D. Ashton, C. Noonan, 2013-09-20 The cultural industries are an area of continued international debate This edited volume brings together original contributions to examine the experiences and realities of working within a number of creative sectors and address how higher education can both enable students to pursue and critically examine work in the cultural industries

Cultural Work and Creative Subjectivity Xin Gu, 2023-08-28 This book critically investigates the declining status of creative workers in contemporary societies following changes associated with the neoliberal creativity discourse from the distribution of resources around cultural production to consumption and from the management of labour time to life time These changes have narrowed career pathways for creative workers resulting in exploitative working conditions for both professionals and amateurs The contemporary cultural industries accentuate entrepreneurialism informed by social network markets and a capacity to engage technologised consumer culture This book suggests that a radically different view is needed to understand how creative workers justify their continued participation in the cultural industries It pays particular attention to the identities of marginalised cultural workers underpaid or under rewarded and argues that cultural work cannot be understood as a route into entrapment by self exploitation sacrificial labour nor as an abstract form of creative autonomy Creative workers must engage the artist critique to re claim the social values of making culture as public labour Bringing together theory and practice via contemporary case studies this book is a significant contribution to research on the cultural economy and will be of interest to researchers in this field and practitioners in the management of cultural work

Creative and Cultural Work in Europe Bård Kleppe, Jaka Primorac, Miikka Pyykkönen, David Wright, 2026-03-25 This book gathers evidence and case studies from various parts of Europe and across the different sectors that comprise the creative industries including the visual and performing arts popular music the platform economy and film The creative economy has been lauded by national and regional governments for its job creating potential even though the jobs created might be insecure or poorly paid This edited collection emerges from a research network examining this contradiction It gathers empirical material and case studies across European creative sectors to explore how creative work is perceived by

both workers and policymakers and how these understandings shape practical worker support The volume brings together renowned European experts from cultural sociology cultural studies and creative labour research Combining cross national writing teams with focused national case studies it provides comprehensive insights into diverse creative economies across Europe Addressing the tension between the creative economy s promise and workers lived experiences it examines how cultural and economic policies intersect with social inequalities determining who can access and thrive in creative careers The research reveals both the challenges facing creative workers and emerging strategies for creating more equitable opportunities Through analysis of macro level policy frameworks alongside micro level worker experiences this book offers nuanced perspectives and examines the structural factors that shape the conditions of creative work With insights from renowned European experts *Creative and Cultural Work in Europe* will be of value to those studying and researching cultural policy labour studies and the creative industries more broadly

abstract This paper discusses the relation of Richard Florida s notion of creative cities cluster economics and urban policies towards creative industries Two empirical cases San Diego s bioscience cluster and Berlin s club scene are examined in order to reconstruct their success analyze corresponding factors identify challenges and problems and discuss recent developments Conclusions will be drawn on what city governments policies can or cannot as well as should not do to support creative industries It will be argued that the scope of urban policies even in a Floridaesque age of creative cities is still wellrelated to traditional cluster policies but therefore also limited by scale and dependent on private enterprises and cluster actors that

have an active role in attracting other creative people Cultural Industries and the Production of Culture Dominic Power,2011 Cutting edge perspectives on the functioning of cultural industries are offered in this volume which explores the media entertainment artistic sectors Contributors place these industries in the new economy suggest ways in which they can contribute to urban regional economic social development
