Culture A Problem That Cannot Be Solved Paperback By Nuckolls Charles:

Culture Charles W. Nuckolls, 1998-09-15 French historian Alexis de Tocqueville observed that the conflict between the ideals of individualism and community defines American culture In this groundbreaking new work anthropologist Charles Nuckolls discovers that every culture consists of such paradoxes thus making culture a problem that cannot be solved He does however find much creative tension in these unresolvable opposites Nuckolls presents three fascinating case studies that demonstrate how values often are expressed in the organization of social roles First he treats the Micronesian Ifaluks opposition between cooperation and self gratification by examining the nature versus nurture debate Nuckolls then shifts to the values of community and individual adventure by looking at the conflicts in the identities of public figures in Oklahoma Finally he investigates the cultural significance in the diagnostic system and practices of psychiatry in the United States Nuckolls asserts that psychiatry treats genders differently assigning dependence to women and independence to men and in some cases diagnoses the extreme forms of these values as disorders Nuckolls elaborates on the theory of culture that he introduced in his previous book *The Cultural Dialectics of Knowledge and Desire* which proposed that the desire to resolve conflicts is central to cultural knowledge In *Culture A Problem that Cannot Be Solved* Nuckolls restores the neglected social science concept of values which addresses both knowledge and motivation As a result he brings together cognition and psychoanalysis as well as sociology and psychology in his study of cultural processes **American Book Publishing Record Cumulative 1998** R R Bowker Publishing, 1999-03 Total Confinement Lorna A. Rhodes, 2004-02-26

Ethnographically rich thick with gritty details and original insights Rhodes s revelatory book about US prisons those who are incarcerated in them and those who run them should be read by everyone who cares about social justice and the nature of power Emily Martin author of *Flexible Bodies* Thank you Lorna Rhodes for taking us to where the worst of the worst are kept out of sight and out of mind in the new millennium This powerful ethnography of the correctional high tech machine reveals how institutional power suffocates individual agency and redefines rationality and insanity Good bad and evil fall by the wayside Philippe Bourgois author of *In Search of Respect Selling Crack in El Barrio* A truly remarkable book The inside look at supermax confinement alone is worth the price of admission and the prose sometimes verges on poetry This is meticulous scholarship Hans Toch author of *Living in Prison* *The Deepest Dye* Aisha Khan, 2021-07-13 How colonial categories of race and religion together created identities and hierarchies that today are vehicles for multicultural nationalism and social critique in the Caribbean and its diasporas When the British Empire abolished slavery Caribbean sugar plantation owners faced a labor shortage To solve the problem they imported indentured coolie laborers Hindus and a minority Muslim population from the Indian subcontinent Indentureship continued from 1838 until its official end in 1917 *The Deepest Dye* begins on post emancipation plantations in the West Indies where Europeans Indians and Africans intermingled for work and worship and ranges to present day England North America and Trinidad where colonial era legacies endure in identities and

hierarchies that still shape the post independence Caribbean and its contemporary diasporas Aisha Khan focuses on the contested religious practices of obeah and Hosay which are racialized as African and Indian despite the diversity of their participants Obeah a catch all Caribbean term for sub Saharan healing and divination traditions was associated in colonial society with magic slave insurrection and fraud This led to anti obeah laws some of which still remain in place Hosay developed in the West Indies from Indian commemorations of the Islamic mourning ritual of Muharram Although it received certain legal protections Hosay s mass gatherings processions and mock battles provoked fears of economic disruption and labor unrest that lead to criminalization by colonial powers The proper observance of Hosay was debated among some historical Muslim communities and continues to be debated now In a nuanced study of these two practices Aisha Khan sheds light on power dynamics through religious and racial identities formed in the context of colonialism in the Atlantic world and shows how today these identities reiterate inequalities as well as reinforce demands for justice and recognition

Conversations with the Turtles Nilson Ariel Espino, 2024-06-13 Polarization often results from deficient forms of social belonging caused primarily by stark social inequalities These inequalities then generate psychological responses that both create and worsen polarization Yet social stability is possible In this provocative and original book Nilson Ariel Espino argues that our current ideological polarizations can be best analysed as springing from the contradictions of modernity and its obsessions Using culture as a founding and organizing dimension the author disassembles the typical dichotomies of left versus right or conservatism versus progressivism and reveals the opposing sides as mutually interdependent positions that struggle with cultural paradoxes they are ill suited to address Written with clarity and verve for the general reader this book brings classic concepts of cultural anthropology to bear on the key preoccupations of today s world from poverty and inequality to political instability and the environmental crisis *The Cumulative Book Index*, 1999 **Culture** Charles W. Nuckolls, 1998-09-22 French historian Alexis de Tocqueville observed that the conflict between the ideals of individualism and community defines American culture In this groundbreaking new work anthropologist Charles Nuckolls discovers that every culture consists of such paradoxes thus making culture a problem that cannot be solved He does however find much creative tension in these unresolvable opposites Nuckolls presents three fascinating case studies that demonstrate how values often are expressed in the organization of social roles First he treats the Micronesian Ifaluks opposition between cooperation and self gratification by examining the nature versus nurture debate Nuckolls then shifts to the values of community and individual adventure by looking at the conflicts in the identities of public figures in Oklahoma Finally he investigates the cultural significance in the diagnostic system and practices of psychiatry in the United States Nuckolls asserts that psychiatry treats genders differently assigning dependence to women and independence to men and in some cases diagnoses the extreme forms of these values as disorders Nuckolls elaborates on the theory of culture that he introduced in his previous book *The Cultural Dialectics of Knowledge and Desire* which proposed that the desire to resolve

conflicts is central to cultural knowledge In Culture A Problem that Cannot Be Solved Nuckolls restores the neglected social science concept of values which addresses both knowledge and motivation As a result he brings together cognition and psychoanalysis as well as sociology and psychology in his study of cultural processes

Race and Utopian Desire in American Literature and Society Patricia Ventura,Edward K. Chan,2019-10-12 Bringing together a variety of scholarly voices this book argues for the necessity of understanding the important role literature plays in crystallizing the ideologies of the oppressed while exploring the necessarily racialized character of utopian thought in American culture and society Utopia in everyday usage designates an idealized fantasy place but within the interdisciplinary field of utopian studies the term often describes the worldviews of non dominant groups when they challenge the ruling order In a time when white supremacy is reasserting itself in the US and around the world there is a growing need to understand the vital relationship between race and utopia as a resource for resistance Utopian literature opens up that relationship by envisioning and negotiating the prospect of a better future while acknowledging the brutal past The collection fills a critical gap in both literary studies which has largely ignored the issue of race and utopia and utopian studies which has said too little about race

Design Issues ,1999 *Feminist Studies* ,1999 Army of Hope, Army of Alienation John Palmer Hawkins,2005 Seeks to penetrate the logic social structure and daily practice of life in American military communities in Germany Army life has always been known as a life of sacrifice challenge and frustration yet one filled also with deep satisfactions This is so for the soldiers families as much as for the soldiers themselves Over the years military and civilian leaders of the US Army have tried to reduce the hardships of military life by creating an array of community services designed to provide social support for soldiers and families and help them live satisfying lives in military communities Unfortunately this effort has not been particularly successful and frustration dissatisfaction and alienation persist among soldiers and family member in the US Army communities in Germany Discontent continues because the underlying sources of alienation in the Army and among its families are highly complex poorly understood and therefore hardly addressed by the Army s quality of life programs that are intended to make soldier and family life more bearable In Army of Hope Army of Alienation Culture and Contradiction in the American Army Communities of Cold War Germany the author seeks to penetrate the logic social structure and daily practice of life in the American military communities that lay scattered along the frontier between East and West Germany during the final years of the Cold War In coming to understand the life and thought of these American soldiers and families ordinary American citizens can learn much about their military forces and about their own society and culture In addition a greater understanding about how people work and live around an institution that is at once so important and yet tasked with a mission so different from that of ordinary pursuits can stimulate social scientists and concerned citizens to think differently about culture society and behavior in general

Britannica Book of the Year ,1999 The Cultural Dialectics of Knowledge and Desire Charles William Nuckolls,1996

Why is culture a problem that can never be solved Charles W Nuckolls poses this question to his readers and offers a genuinely synthetic approach to culture that is both cognitive and psychoanalytic He develops a theory of cultural dialectics based on the concept of paradox in which he shows how ambivalence and conflicts and the desire to resolve them are at the heart of all cultural knowledge systems Nuckolls combines and synthesizes the ideas of Max Weber and Sigmund Freud major influences in the cognitive and psychoanalytic paradigms and develops the concept basic to both the dialectic He recovers the legacy of Gregory Bateson who provided the foundation for a theory of paradox in culture With his integrated theory Nuckolls explains the conflicts of knowledge and desire in a South Asian knowledge system in particular the religious mythology and divinatory system of the Jalaris a Telugu speaking fishing caste on the southeastern coast of India This provocative book allows us to rethink the relationship between the currently competing discourses in psychological and cultural anthropology and at the same time offers a general synthetic theory of cultural dynamics
