Culture And Consciousness Literature Regained:

Culture and Consciousness William S. Haney, 2002 Haney demonstrates that the debates in theory surrounding the questions of identity truth and language which have so far eluded the mind or reason cannot be resolved without recourse to the structure of consciousness and intersubjectivity an interaction mediated by language and resulting in mutual agreement Chapters four to eight apply the notion of intersubjectivity to the reading of specific works Jacket

Humanism and the Humanities in the Twenty-first Century William S. Haney, Peter Malekin, 2001 The book raises questions about the underlying paradigms of contemporary learning and social thinking including the nature of consciousness and the mind the purpose and conduct of education the role of science and scientific methodologies the place of art and literature or relationship to the environment our concepts of spirituality our attitudes to the past and also what we are doing to our own future

Redefining Modernism and Postmodernism Sebnem Toplu, Sebnem Toplu, 2010-06-09 Literary and cultural studies in the later twentieth century were very much shaped by debates about modernism and postmodernism as labels for successive periods but also for different competing interpretations of recent cultural history In the twenty first century the shock waves that were sent through the global system on political cultural economic and ecological levels by terrorist attacks regional conflicts poverty the financial crisis and the threat of environmental disaster raise anew the question of how and to what extent the tradition of modernity can be newly defined in a situation where the problematic aspects of these ideas have rightly been exposed but where they nevertheless appear to be crucial for any responsible assessment of contemporary world culture and its future perspectives *Redefining Modernism and Postmodernism* offers a collection of critical articles that resulted from the International Cultural Studies Symposium at Ege University Izmir Turkey in 2009 Scholars from around the world have contributed to this volume reflecting the current perspective on modernism and postmodernism shedding new light on literature literary theory philosophy politics religion film and art Providing an account of this field this book enables readers to navigate the subject by introducing essays on transformations of modernism and postmodernism in the twenty first century and the debates beyond the modernism postmodernism dichotomy

Don DeLillo Katherine Da Cunha Lewin, Kiron Ward, 2018-10-04 Don DeLillo is widely regarded as one of the most significant and prescient writers of our time Since the 1960s DeLillo's fiction has been at the cutting edge of thought on American identity globalization technology environmental destruction and terrorism always with a distinctively macabre and humorous eye Don DeLillo *Contemporary Critical Perspectives* brings together leading scholars of the contemporary American novel to guide readers through DeLillo's oeuvre from his early short stories through to 2016's *Zero K* including his theatrical work As well as critically exploring DeLillo's engagement with key contemporary themes the book also includes a new interview with the author annotated guides to further reading and a chronology of his life and work

Postmodern Theater and the Void of Conceptions William S. Haney II, 2009-03-26 Different symbolic traditions have different ways of describing the shift of awareness toward

sacred events While not conforming to familiar states of phenomenality this shift of awareness corresponds to Turner's liminal phase Artaud's metaphysical embodiment Grotowski's translumination Brook's holy theater and Barba's transcendent theater all of which are linked to the Advaitan taste of a void of conceptions This book argues that by allowing to come what Derrida calls the unsayable the theater of Tom Stoppard David Henry Hwang Caryl Churchill Sam Shepard Derek Walcott and Girish Karnad induces characters and spectators to deconstruct habitual patterns of perception attenuate the content of consciousness and taste the void of conceptions As the nine plays discussed in this book suggest the internal observer lies behind all cultural constructs as a silent beyondness and immanently within knowledge as its generative condition of unknowingness The unsayable and the language used to convey it that Derrida finds in literature has clear affinities with the Brahman Atman of Advaita Vedanta Derridean deconstruction contains as a subtext the structure of consciousness that it both veils with the undecidable trappings of the mind and allows to come as an unsayable secret through a play of difference Although Derrida views theater and the text as mutually deconstructing and claims that presence or unity has always already begun to represent itself the six playwrights discussed here show that cultural performance indeed points through its universally ambiguous and symbolic types toward a transverbal transcultural wholeness

Before Philosophy Richard Stevko, 2014-02-25 Exploration of phenomena necessary for philosophy to break out of a prephilosophic state involves development of mental functioning as the brain evolved A tripartite path evolves development of the brain in the animal kingdom development of the brain specifically in human evolution and development of the brain in individuals both as they develop as children into adults and as the adults increase their consciousness through life
