Culture In Practice Selected Essays:

Culture in Practice Marshall Sahlins, 2000 Essays that span the career of a prominent anthropologist and address the fundamental questions of the field *Culture in Practice* collects the academic and political writings from the 1960s through the 1990s of anthropologist Marshall Sahlins More than a compilation *Culture in Practice* unfolds as an intellectual autobiography The book opens with Sahlins's early general studies of culture economy and human nature It then moves to his reportage and reflections on the war in Vietnam and the antiwar movement the event that most strongly affected his thinking about cultural specificity Finally it offers his more historical and globally aware works on indigenous peoples especially those of the Pacific islands Sahlins exposes the cultural specificity of the West developing a critical account of the distinctive ways that we act in and understand the world The book includes a play review of Robert Ardrey's sociobiology essays on native consumption patterns of food and clothes in America and the West explorations of how two thousand years of Western cosmology affect our understanding of others and ethnohistorical accounts of how cultural orders of Europeans and Pacific islanders structured the historical experiences of both Throughout Sahlins offers his own way of thinking about the anthropological project To transcend critically our native categories in order to understand how other peoples have historically constructed their modes of existence even now in the era of globalization is the great challenge of contemporary anthropology

Culture in Practice, 2001 **Rituality and Social (Dis)Order** Alessandro Testa, 2020-11-29 Carnival has been described as one of the foundational elements of European culture bearing an emblematic and iconic status as the festive phenomenon par excellence Its origins are partly obscure but its stratified and complex history rich symbolic diversity and sundry social configurations make it an exceptional object of cultural analysis The product of more than 12 years of research this book is the first comparative historical anthropology of popular European Carnival in the English language with a focus on its symbolic religious and political dimensions and transformations throughout the centuries It builds on a variety of theories of social change and social structures questioning existing assumptions about what folklore is and how cultural gaps and differences take shape and reproduce through ritual forms of collective action It also challenges recent interpretations about the performative and political dimension of European festive culture especially in its carnivalesque declension While presenting and exploring the most important features and characteristics of European pre modern Carnival and discussing its origins and developments this thorough study offers fresh evidence and up to date analyses about its transversal and long lasting significance in European societies

Handbook on Intangible Cultural Practices as Global Strategies for the Future Christoph Wulf, 2024-12-14 This open access handbook is the first to take stock of and to provide a comprehensive international interdisciplinary review of developments in living culture since the Convention on Safeguarding Intangible Cultural Heritage began in 2003 It is based on an expanded concept of culture as it has been used in UNESCO since the 1980s and signed by more than 180 countries The convention makes clear the significant role of the Global South in

raising planetary awareness of the importance of intangible cultural practices The first part of the book examines the relationship between the 1972 World Heritage Convention and the 2003 Convention on Intangible Cultural Heritage The second part of the book focuses on colonialism minorities inequality and the struggle for human rights Perspectives from Nigeria Brazil and the US show how colonialism still has a lasting effect today and what role the practices of intangible cultural heritage play in the struggles for the recognition of minorities The third part looks at the contribution of intangible cultural heritage practices to the creation of meaning community and identity How are these practices designed so that they allow as much participation as possible and lead to a successful handling of conflicts The focus is on bottom up processes Part four examines several areas of aesthetics including music dance song museum architecture and theater showing the importance of the aesthetic dimension and its contribution to the formation of individuals and communities The fifth and final part of the book examines central problems of living culture and intangible cultural practices This includes articles on new forms of community building significance of digital and post digital culture and metaphors In the coming decades intangible cultural heritage practices will become increasingly important for sustainable and peaceful planetary communication to which the balance of this book and the perspectives based on it will make a significant contribution

Unwrapping the Sacred Bundle Daniel A. Segal, Sylvia J. Yanagisako, 2005-05-05 A collection that debates and studies how to revise the four field approach of anthropology *Selected Essays of William Graham Sumner* William Graham Sumner, 1924

Proletarian Imagination Mark D. Steinberg, 2018-05-31 In fin de siècle and early revolutionary Russia a group of self educated workers produced a large body of poetry and prose in which they attempted to comprehend their rapidly changing world Witnesses to wars and revolution these men and women grappled on paper with the nature of civilization and the imperatives of ethical truth In a strikingly original approach to Russian culture Mark D Steinberg listens to their words which are little known today The results of their literary creativity he finds were frequently not what the new Soviet order was expecting from its workers despite its celebration of the notion of a proletarian art Through insightful readings of a vast fund of lower class writings Steinberg shows that the authors focused above all on the uncertain nature and place of the self the promise and dangers of modernity and the qualities of the sacred in both their lives and their imaginations Like their counterparts in the intelligentsia these worker writers were ambivalent about Marxist ideology s celebration of the city and the factory and even about modern progress itself Drawing on vast research Steinberg demonstrates the texts significance for an understanding of Russian popular mentalities indeed for the very meaning philosophically and morally of these years of crisis and possibility at the end of the old order and the early years of the Soviet regime *Advances in Cultural*

Entrepreneurship Christi Lockwood, Jean-François Soublière, 2022-04-18 With contributions from some of the field s leading scholars this volume aims to further expand the agenda and scope of cultural entrepreneurship research by broadening what culture encompasses and what entrepreneurship entails **Embodied Rituals & Ritualized Bodies** Liv Nilsson Stutz, 2003

This is a Ph D dissertation This thesis explores the ritual dimensions of the mortuary practices in the Late Mesolithic cemeteries at Skateholm in Southern Sweden and Vedbaeck Bogebakken in Eastern Denmark With a combination of methods and theories the

(Un)Doing History Vanita Seth,2025-03-31 Against the grain of much contemporary scholarship within medieval studies this work emphasizes the radical alterity and historical rupture that the Middle Ages represents in European history Through an engagement with three contentious debates in medieval studies historiography race and individuated subjectivity Vanita Seth s work employs postcolonial and postmodern theorizing to explore questions of ontology epistemology facial privileging and emotion and identity in the European Middle Ages and early modern period While the subject matter of this book is historical the stakes are contemporary and political Seth s contention is that it is the very alterity that the medieval represents that enables contemporary scholars and activists to recognize as historical that which is so often posited as natural Writing a history of absence while also engaging radically different ways of being in the world this book argues helps to disrupt the self evident naturalization of the face to contest knee jerk celebrations of individuality tethered to the human visage and to recognize racism not as an age old nemesis but as a distinctly modern form of organizing power This work is interdisciplinary engaging scholarship in science studies philosophy feminist theory anthropology race studies and literature and postmodern and postcolonial theory It presumes no prior specialized knowledge in medieval studies and or history This book is an essential reading for scholars and students in the fields of medieval and early modern history race historiography identity and emotion studies

Collected Essays Haym Soloveitchik,2013 In this second volume of his essays on the history of halakhah Haym Soloveitchik grapples with much disputed topics in medieval Jewish history including the roots and culture of Early Ashkenaz and its knowledge of the Babylonian Talmud martyrdom as perceived and practised by Jews under Islam and Christianity and the interpretation of Maimonides Mishneh torah

Development and Culture Deborah Eade,Thierry G. Verhelst,Wendy Tyndale,2002 Most development policies and interventions are based on an assumption that modernisation in the Western sense is the ultimate goal of human societies Culture is therefore regarded either as an impediment to progress or as something outside the economic and political spheres and consigned to areas of religion and ritual This collection of papers published in association with World Faiths Development Dialogue and written by a range of aid practitioners and scholars shows the need not merely to view culture as an important dimension of development but to see development itself as a cultural expression and culture as the basis upon which societies can develop through self renewal and growth
