Culture The Crowd:

Culture and the Crowd Deric Regin,1968 *Cultural Funding and Financing* Carolina Dalla Chiesa,Anders Rykkja,2026-01-03 This edited open access volume offers a comprehensive analysis of new and traditional funding models for the arts and culture In the economic and political contexts of reduced art funding the book takes an objective pragmatic and heterodox approach to demonstrate how financial sustainability in the arts can be achieved via a range of top down and bottom up mechanisms which are valued either in terms of institutional or crowd based legitimacy The book aims to offer both a scholarly interpretation of established and emerging funding and financing practices within the cultural and creative sector as well as guidance for artists creators and cultural programmers through various case studies and multiple examples of current practices Contributions are divided into three sections Section one outlines the most important traditional tools and models while the second part covers the key contemporary practices premised on the use of digital platforms and the final part introduces several case studies The objective of this volume is to demonstrate that while traditional models show no signs of being supplanted digitalisation has facilitated the emergence of new forms Such an evolution has consequences for creators of works as well as those willing to support them The contributions address these issues by investigating and analysing the individual or combined adoption of traditional and new funding and financing models in a post digital context

Christopher Garrison,2001-12-05 From the FOREWORD by Dan G Blazer M D Ph D Professor of Psychiatry Duke University Medical Center Occasionally a writer on psychology and biblical faith comes along who can work from the center J Christopher Garrison is such a writer Let me explain what I mean by working from the center No person who is thoroughly committed to his or her religious faith can really put that faith aside and work with scientific objectivity in blending the essence of that faith with the subject matter of empirical science Even if someone could I doubt that the project would be of great interest Such a person would not be someone I would define as working from the center A person who can work from the center in blending psychology and biblical faith is a person who can work not so much from the center of extremes as from the center of their being from their spirit if you will This ability shows itself when one has opened his or her innermost being to the Spirit of God and his or her mind and reason to modern psychology and truly grasped as a result the principles and concepts of what psychology is really about This is what Garrison has achieved In Garrison s Psychology of the Spirit psychology is not so much integrated as it is enriched Reading the end product deepens one s faith and one s understanding Such a psychology is not the mere providing of formulas for meeting daily life crises It is instead the total unfolding and renewal of one s inner being   **Crowd Culture.
