## **Current Issues In Spanish Syntax And Semantics:**

Current Issues in Spanish Syntax and Semantics Javier Gutiérrez-Rexach, Luis Silva-Villar, 2012-10-25 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century This branch of linguistics broadly known as Generative Grammar is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the language organ The series comprises high quality monographs and collected volumes that address such issues The topics in this series range from phonology to semantics from syntax to information structure from mathematical linguistics to studies of the lexicon *Current Formal Aspects of Spanish Syntax and Semantics* Melvin González-Rivera, Sandro Sessarego, 2012-04-25 This book is a compilation of articles on different aspects of Spanish grammar in the areas of current theoretical syntax and semantics The issue brings together scholars working on some formal aspects of Spanish predicative complementation e g deque smo neuter demonstrative pronouns the subject of Psych verbs the nature of non verbal predication and the internal structure of the Determiner Phrase DP cf gender variation among other topics Linguists and philologists with interests in Spanish and or in other Romance languages are the main target audience The book will appeal also to researchers and students specializing in generative grammar semantics and in the syntax semantics interface It will also be of interest to historical linguists and dialectologists addressing theoretical formal issues cf Afro Bolivian Spanish The research in this book points to a cohesiveness in Spanish linguistics that lies in the integration of up to date empirically based linguistic research with current theoretical assumptions on the nature of syntax and semantics *Meaning Through Language Contrast* Katarzyna M. Jaszczolt, Ken Turner, 2003-03-20 These volumes contain selected papers from the Second International Conference on Contrastive Semantics and Pragmatics that was held at Newnham College University of Cambridge in September 2000 They include papers on negation temporality modality evidentiality eventualities grammar and conceptualization grammaticalization metaphor cross cultural pragmatics and speech acts and the semantics pragmatics boundary There are contributions by amongst many others Les Bruce Ilinca Crainiceanu Thorstein Fretheim Saeko Fukushima Ronald Geluykens Javier Gutierrez Rexach Klaus von Heusinger K M Jaszczolt Susumu Kubo Akiko Kurosawa Eva Lavric Didier Maillat M rta Maleczki Steve Nicolle Sergei Tatevosov L M Tovená Jacqueline Visconti and Krista Vogelberg A Reference Grammar of Romanian Carmen Dobrovie-Sorin, Ion Giurgea, 2013-11-15 Based on recent research in formal linguistics this volume provides a thorough description of the whole system of Romanian Noun Phrases understood in an extended sense that is in addition to nouns pronouns and determiners it examines all the adnominal phrases genitive marked DPs adjectives relative clauses appositions prepositional phrases complement clauses and non finite modifiers The book focuses on syntax and the syntax semantics interface but also includes a systematic morphological description of the language The implicitly comparative description of Romanian contained in the book can serve as a starting point for the study of the syntax

semantics of Noun Phrases in other languages regardless of whether or not they are typologically related to Romanian This book will be of special interest to linguists working on Romanian Romance languages comparative linguistics and language typology especially because Romanian is relevant for comparative linguistics not only as a Romance language but also as part of the so called Balkan Sprachbund

**Word-Order Change as a Source of Grammaticalisation** Susann Fischer, 2010-06-30 This book presents a new perspective on the interaction between word order and grammaticalisation by investigating the changes that stylistic fronting and oblique subjects have undergone in Romance Catalan French Spanish as compared to Germanic English Icelandic It discusses a great deal of historical comparative data showing that stylistic fronting and oblique subjects have had a semantic effect in the Germanic and in the Romance languages and that they both appear in the same functional category The loss of stylistic fronting and oblique subjects is seen as an effect of grammaticalisation where grammaticalisation is taken to be a regular case of parameter change In contrast to previous and recent approaches to grammaticalisation however the author shows that it is not the loss of morphology that triggers

grammaticalisation with subsequent word order changes but that the word order change sets off grammaticalisation in the functional categories which is then followed by the loss of morphology *Proceedings of the 34th Annual Boston University Conference on Language Development* Katie Franich, Kate M. Iserman, Lauren L. Keil, 2010 The 34th annual Boston University Conference on Language Development was held November 6-8 2009 in Boston MA The proceedings contain 45 of the papers presented at the conference The two volume set covers a wide range of research in language acquisition and language development
