Contemporary Issues in Development Economics B. N. Ghosh,2001-04-12 This brand new collection of articles looks at both traditional concerns in economic development such as aid debt and the role of the IMF but also at gender brain drain military expenditure and postcolonial theory

Current Issues in Development Economics V. N. Balasubramanyam, Sanjaya Lall,1991 A volume which looks at development economics and many related issues such as agriculture industry trade macroeconomic stabilization debt and structural adjustment Also included are papers on the evolution of development economics and new issues for example services

**Contemporary Issues in Development Economics** B. N. Ghosh,2001 This new collection of articles puts the very latest issues in economic development under the microscope exploring them from a variety of perspectives Beginning with an assessment of the current state of play in development the authors move forward to examine neglected issues such as human development gender brain drain military expenditure and post colonial theory While analysing the problems of external debts technology transfer and new theories of international trade the relationship between developing and developed economies is fully explored The book also examines the important topics of financial reform structural adjustments and the role of the IMF in the new financial architecture The highly respected contributors subject these critical issues to thorough analysis with suggestions towards resolving some of these problems making this an indispensable book that researchers and students of development economics cannot afford to miss

*Contemporary Issues in Development Economics* Timothy Besley,2016-04-29 This IEA volume brings together a set of essays written by leading authors on themes relevant to the study of economic development The book covers a range of topics many of which are relevant to policy issues The contributors bring new insights from empirical research in a range of economies with chapters including discussions of the UN development agenda fiscal policy in Latin America poverty data in Africa and Jordan and monetary policy in South Africa *Contemporary Issues in Development Economics* is an essential read for researchers scholars and policymakers interested in economic development in low and middle income countries

*Development Economics and Social Justice* John Thoburn,2017-11-28 Professor Ian Livingstone is one of a small group of British development economists who have achieved international renown and recognition The objective of this book is to pay tribute to his life's work particularly those aspects which related to key but challenging development issues These issues include at a broad level the understanding of the economic forces determining the development of low income economies more detailed micro work on agricultural development irrigation in particular decentralisation and local government finance small scale enterprises and large scale manufacturing development Themes running through his work relate to his over riding concern for rigour and for socio economic justice Ian Livingstone consistently used the traditional tools of economic analysis as a means to increase understanding of development issues in a way which was itself just as radical as the contributions of political scientists and sociologists This volume has been produced with similar aims

**and Their Applications** Shaw, 2026-01-17      *Development Economics in the Twenty-First Century* Claudia Sunna, Davide Gualerzi, 2015-12-14 Development Economics has been identified as a homogeneous body of theory since the 1950s concerned both with the study of development issues and with the shaping of more effective policies for less advanced economies Development Economics in the Twenty First Century brings together an international contributor team in order to explore the origins and evolution of development economics This book highlights the different elements of high development theory through a precise reconstruction of the different theoretical approaches that developed between the 1950s and the 1970s These include the theory of balanced and unbalanced growth theory the debate on international trade the concept of dualism dependency theory structuralism and the analysis of poverty and institutions The chapters highlight the relevance and usefulness of these analyses for the contemporary theoretical debate on development issues Comparative perspectives are explored and analysed including those of Keynes Hirschman Krugman and Stiglitz The chapters situate development economics within current debates among economists and historians of economic thought providing a platform for future research This book is suitable for researchers and students with an interest in Development Economics the History of Economic development and the Economics of Developing Countries      *Economic Development* Jan S. Hogendorn, 1996 Analyzes the basic theories of development and explores current issues relevant to less developed countries emphasizing international economic aspects of development Contains chapters on measuring development and poverty financing development foreign aid the World Bank and the IMF technology population labor and human capital rural development trade policy and the environment For students who have taken a first year course in the principles of economics Annotation copyright by Book News Inc Portland OR      Annual World Bank Conference on Development Economics, 1998      *Leading Issues in Economic Development* Gerald M. Meier, 1984 Now in its seventh edition Leading Issues in Economic Development introduces a new co author James E Rauch Maintaining the unique structure that the book has established over the last 35 years Rauch has revised and updated this seventh edition to strengthen the analytical and quantitative dimensions and to clarify contemporary and future problems of development policy The co authors integrate the most insightful materials in this wide ranging field offering students the opportunity to experience a variety of perspectives while helping them to keep sight of overarching themes This edition adds two new chapters Income Distribution and Development and the Environment It also now consolidates several chapters and increases the number of selections from leading professional journals In this edition both the selections and the authors own overviews notes comments and exhibits make greater use of empirical analysis as well as modern economic theory In all Leading Issues in Economic Development provides fresh and serious attention to the interplay between development experience changing views of economists and policy      *New Directions in Development Economics* Mats Lundahl, Benno Ndulu, 2005-08-10 New Directions in Development Economics is divided into two parts The first half considers the dilemma of growth with special reference to its environmental cost The second half focuses on the

role of the state in the context of the growing dominance of the free market argument The contributors include Paul Collier Partha Dasgupta Ronald Findlay and Deepak Lal *Leading Issues in Economic Development* Gerald M. Meier,1995 Providing a wide range of viewpoints not found in the ordinary textbook this edition also includes readings on new growth theory new institutional economics and problems of imperfect information and incomplete markets the environment issues of gender recent experience with policy reform and political economy as related to government failure Handbook of Development Economics Hollis Burnley Chenery,T.N. 1 **Development Economics : From the Poverty to the Wealth of Nations** Yujiro Hayami,2001-02-15 A comprehensive and systematic account of the core topics in development economics this book examines the reasons why a few countries have achieved a high level of affluence while the majority remain poor and stagnant It represents an original combination of classical political economy modern institutional theory and current development issues bound together through the East Asian development experience This fully revised second edition also analyses some recent changes and newly emerged problems relevant to the global economy This textbook provides a comprehensive systematic treatise on development economics combining classical political economy modern institutional theory and current development issues It has grown out of thirty years experience of teaching undergraduate and postgraduate students in the United States Japan and other parts of Asia The treatment is global although the organizing principle is the East Asian development experience Quantitative characteristics of Third World development in terms of population growth natural resource depletion capital accumulation and technological change are outlined but the central approach is comparative institutional analysis Development Economics addresses one major question Why has a small set of countries achieved a high level of affluence while the majority remain poor and stagnant Why in turn has the number of developing economies set on the track of closing their productivity gap with advance economies been so limited One obvious factor underlying this global divergence is unevenness in the ability to adopt and develop advanced technology due in large measure to the difficulty experienced by low income economies in preparing appropriate institutions for borrowing advanced technology given their social and cultural constraints The major task of this volume is to explore the nature of these binding constraints with the aim of identifying the means to remove them Comparisons are made with countries where the constraints have been successfully lifted most notably Japan and East Asian NIEs This fully revised and updated second edition also incorporates analyses of several recent changes and newly emerged problems relevant to the global economy the 1997 98 financial crisis in East Asia the Kyoto Protocol signed in 1997 at the Third Conference of Parties for the United Nations Framework Convention on Climate Change and the deceleration in growth of agricultural productivity in Asia Exploration of these issues provides important lessons on how to sustain economic growth based on technology borrowing Journal of Development Assistance ,1995 The Palgrave Handbook of Development Economics Machiko Nissanke,José Antonio Ocampo,2020-08-28 This Handbook responds

to the needs and aspirations of current and future generations of development economists by providing critical reference material alongside or in relation to mainstream propositions Despite the potential of globalisation in accelerating growth and development in low and middle income countries through the spread of technology knowledge and information its current practice in many parts of the world has led to processes that are socially economically and politically and ecologically unsustainable It is critical for development economists to engage with the pivotal question of how to change the nature and course of globalisation to make it work for inclusive and sustainable development Applying a critical and pluralistic approach the chapters in this Handbook examine economics of development paths under globalisation focusing on sustainable development in social environmental institutional and political economy dimensions It aims at advancing the frontier of development economics in these key aspects and generating more refined policy perspectives It is critically reflective in examining effects of globalisation on development paths to date and in terms of methodological and analytical approaches as well as forward thinking in policy perspectives with a view to laying a foundation for sustainable development
