Broadcasting and Politics in Western Europe Raymond Kuhn,2005-06-28 First Published in 1985 The changing face of Western European broadcasting provides a fascinating subject of study for the contemporary observer In part this is because the structures of different national broadcasting systems have altered over the past few years with the growth of new radio stations and television channels Of particular interest to political scientists is the fact that in many cases the contemporary debate on broadcasting as it affects both the old and new media is taking place in a different

political ideological environment as well as a changing technological one So now is an opportune moment to provide an up to date survey of broadcasting and politics in Western Europe This is the objective of this special issue of West European Politics which consists of eight single country studies and one cross national comparative article **Business**

Leadership in Place Jon F. Wergin, 2007 In this stimulating collection of stories ten academic leaders reflect from personal experience on leadership in place an emergent mode of leadership that brings people together in order to effect organizational change Originating from diverse sectors of the academy each of the book s contributors brings a fresh and deeply human perspective on academic leadership theories and their effective applications Leadership in Place calls for a shift in attitude about leaders and leadership It departs from the hierarchical view that academic leadership flows from a leadership position and instead embraces a more lateral view where leadership roles are available to everyone It calls for a rethinking of how our colleges and universities are led and organized by discussing the following Importance of strong academic communities in preserving the integrity of academic programs Empowerment of part time faculty by combining adaptive and transformative learning models Opportunities for benefits of and challenges in collaborative leadership Problems that can emerge in times of leadership transitions and possible solutions Concept of leadership as an attribute of the many rather than the few Advocating for academics to reengage and recommit to their institutions the book creates an agenda for what higher education must do to create conditions under which leadership in place is the norm rather than the exception *The SAGE Encyclopedia of Corporate Reputation* Craig E. Carroll, 2016-05-04 What creates corporate reputations and how should organizations respond Corporate reputation is a growing research field in disciplines as diverse as communication management marketing industrial and organizational psychology and sociology As a formal area of academic study it is relatively young with roots in the 1980s and the emergence of specialized reputation rankings for

industries products services and performance dimensions and for regions Such rankings resulted in competition between organizations and the alignment of organizational activities to qualify and improve standings in the rankings In addition today s changing stakeholder expectations the growth of advocacy demand for more disclosures and greater transparency and globalized mediatized environments create new challenges pitfalls and opportunities for organizations Successfully engaging dealing with and working through reputational challenges requires an understanding of options and tools for organizational decision making and stakeholder engagement For the first time the vast and important field of corporate reputation is explored in the format of an encyclopedic reference The SAGE Encyclopedia of Corporate Reputation comprehensively overviews concepts and techniques for identifying building measuring monitoring evaluating maintaining valuing living up to and or changing corporate reputations Key features include 300 signed entries are organized in A to Z fashion in 2 volumes available in a choice of electronic or print formats Entries conclude with Cross References and Further Readings to guide students to in depth resources Although organized A to Z a thematic Reader s Guide in the front matter groups related entries by broad areas A Chronology provides historical perspective on the development of corporate reputation as a discrete field of study A Resource Guide in the back matter lists classic books key journals associations websites and selected degree programs of relevance to corporate reputation A General Bibliography will be accompanied by visual maps noting the relationships between the various disciplines touching upon corporate reputation studies The work concludes with a comprehensive Index which in the electronic version combines with the Reader s Guide and Cross References to provide thorough search and browse capabilities
