

INTRODUCTION TO CULTURAL STUDIES.

-What does culture mean?

Culture covers a wide range of perspectives such as knowledge, beliefs, behaviours, religion, values, goals, and customs shared by a society. It is what makes a group of people special than others and convey it from generation to another.

What do cultural studies mean?

Cultural studies is the study of different cultures but uses many other studies to analyze different cultures such as philosophy, theology, literature... cultural studies addresses questions and problems of today's world and help to discover how and why cultures are formed and the reason groups of people act the way they do.

Lecture 2: Simon During: Introduction

The concept of culture was in the early 1970s considered as a form of domination which is not only invisible but also being accepted from people whom considered as subordinates. Furthermore it was considered as a form of governmentality whose essential function is to educate and lighten citizens.

Lecture 3: Theodor Adorno and Max Horkheimer essay "The Culture Industry: Enlightenment as mass deception.

Production has developed from a handcraft phase to an industrial phase, which requires less investment and individual effort

The cultural industry has evolved to meet the growing needs of mass capitalistic consumers. In order to indicate that, this industry was evolved from the mass itself, the culture industry was chosen instead of mass culture.

The majority of products are counting on industry and economy, because they serve power and money interests. So they are designed for profitable purposes even if it looks as artworks.

-Art is no longer autonomous/ independent, but it had become a product of the economy.

-The cultural industry destroys the critical thinking to maintain the ruling system and its madness through distracting the staff focus and keeping them busy with this culture.

-The cultural industry combines production line and mind-strategy together to produce movies and TV shows even though of the variety of this formula, they use the same scheme.
