*Las tres leyes de la naturaleza humana (y su influencia permanente)* José Antonio Torrealday Llona, 2021-02-25 Si no sabes a d nde vas nunca podr s llegar a la meta Si el Homo sapiens no se conoce a s mismo si no conoce ni sabe interpretar su propia historia si sigue siendo un animal gregario incapaz de desarrollar su esp ritu cr tico y si la mujer no participa como protagonista en esta

revolución el uno por mil de la humanidad seguir dominando al novecientos noventa y nueve por mil restante como siempre ha sido Conociendo nuestra utopía somos uno podremos empezar a desbrozar el camino hacia ella y solo así podremos conseguir que el futuro de la especie mal llamada Homo sapiens esté en nuestras manos en las de la mayoría Y el único camino para conseguirlo se apoya en tres elementos esenciales la educación en el desarrollo del espíritu crítico la mujer como parte decisoria en el camino a recorrer y la consecución de una verdadera democracia capaz de controlar a sus electos imposibilitando la corrupción y eliminando de raíz la posibilidad de sus alianzas con el uno por mil

**Intellectuals and Communist Culture** Adriana Petra, 2022-08-16 This book investigates a central chapter in the history of 20th century intellectualism the commitment to the communist ideal and the Soviet Union Focusing on Argentina whose communist party was among the most important in Latin America Petra engages with the current literature on Western communism in order to conduct an exhaustive study of the intellectuals cultural organizations publications and debates within Argentine communism in the decades following World War II Based on rigorous archival research from diverse sources Petra's book distances itself from existing teleological visions and institutional approaches to the communist world offering instead a complex framework in which multiple contexts scales and actors frame the larger problem the intellectual commitment to a political project that brooked no dissent Intellectuals and Communist Culture also addresses the emergence of Peronism a crucial movement in Argentine political life to this very day thus offering an important chapter on Latin American political and intellectual history and an invaluable contribution to the global history of the international communist movement

**Critical Geopolitics and Regional (Re)Configurations** Heriberto Cairo, Breno Bringel, 2019-05-31 This book seeks to develop our understanding of the contemporary geopolitical reconfigurations of two regions of the world system with high cultural affinity and traditional close relations Latin America and Europe Relations between Latin America and Europe have been interpreted generally in the social sciences as synonyms of interstate relations However although States remain the most important actor in the geopolitical scene they have been deeply reconfigured in recent decades impacted by transnational dynamics politics and spaces This book highlights interregional relations and transnational dynamics between Latin America and Europe from a critical geopolitics perspective promoting a new look for interregional relations which encompasses international cooperation and development global policies borders inequalities and social movements It brings attention to the relevance of interregionalism in the current geopolitical reconfiguration of the world system but also argues for systematic inclusion of relevant new social actors and imaginaries in this traditional sphere of states These social actors particularly social movements and practices of contestation are developing not only international

bonds but a new transnational field where networks defy traditional territorial orders This volume seeks to generate a new discussion among scholars of geopolitics international relations social theory and social movement studies by encouraging a development of an interregional and transnational perspective of the two regions
