Vietnam Bruce M. Lockhart, William J. Duiker, 2010-04-14 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War. However, despite a relatively peaceful two decades, the country experienced little economic growth because of conservative leadership policies. In an effort to change this stagnation, Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive export-driven industries. The A to Z of Vietnam focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms, the period of French Indochina, the wars for liberation, the Vietnam War, and much more. Hundreds of cross-referenced A to Z dictionary entries are included on political, economic, social, and cultural aspects, as well as the major cities and geographic features. While books on serving other target groups in libraries have been published (e.g., disabled, Latino, seniors, etc.), few books on serving library users of Asian heritage have been written. Thus, the timely need for this book. Rather than a generalized overview of Asians as a whole, this book has 24 separate chapters, each on 24 specific Asian countries, cultures of East, Southeast, and South Asia, with a wealth of resources for understanding, interacting with, and serving library users of each culture. Resources include cultural guides, both print and online, language helps with sample library vocabulary, Asian booksellers, nationwide cultural groups, professional literature, and more. Resources and suggestions are given for all three types of libraries: public, school, and academic, making this book valuable for all librarians. The demographics of each Asian culture, numbers, and distribution, plus history of immigration and international student enrollment, is also featured. As a bonus, each chapter spotlights a US public school and academic library providing model outreach to Asian library users. Additionally, this book provides a detailed description and analysis of libraries in each of the 24 Asian countries. The history, development, facilities, conditions, technology, classification systems, and more of public, school, and academic libraries are all discussed with detailed

documentation Country conditions influencing libraries and library use are also described literacy levels reading cultures languages and writing systems educational systems and more Based on the author s 15 years of research and travels to Asia this work is a must have for all librarians *Culture Shock!*.
