Finely illustrated and the first of its kind *Curiosity* is a broad study of modern inquiry that explores the way forbidden topics like the occult sexuality gender and the origin of power became topics of public investigation **BOOK JACKET** *Misogynous Economies* Laura C. Mandell,2014-10-17 The eighteenth century saw the birth of the concept of literature as business literature critiqued and promoted capitalism and books themselves became highly marketable canonical objects During this period misogynous representations of women often served to advance capitalist desires and to redirect feelings of antagonism toward the emerging capitalist order *Misogynous Economies* proposes that oppression of women may not have been the primary goal of these misogynistic depictions Using psychoanalytic concepts developed by Julia Kristeva Mandell argues that passionate feelings about the alienating socioeconomic changes brought on by capitalism were displaced onto representations that inspired hatred of women and disgust with the female body Such displacements also played a role in canon formation The accepted literary canon resulted not simply from choices made by eighteenth century critics but also as Mandell argues from editorial and production practices designed to stimulate readers desires to identify with male poets Mandell considers a range of authors from Dryden and Pope to Anna Letitia Barbauld throughout the eighteenth century She also reconsiders Augustan satire offering a radically new view that its misogyny is an attempt to resist the commodification of literature Mandell shows how misogyny was put to use in public discourse by a culture confronting modernization and resisting alienation *Kite Flying and Other Poems for Curious Minds* John A.
