

The background of the cover is white and filled with various mathematical symbols and arrows in blue and grey. Symbols include the Greek letter alpha (α), the number 8, the number 3, and the number 2. Arrows are of different colors and orientations, some pointing towards the top right, others towards the bottom left, and some pointing in various directions. The symbols and arrows are scattered across the page, creating a dynamic and intellectual atmosphere.

Bureaucracy: Three Paradigms Neil Garston,2012-12-06 The study of bureaucracy must include certain key questions what are bureaucrats and bureaucracies why do they exist and what are their functions how do they behave how much power do they possess what is their impact on efficiency and production and how do they affect society This book contains analyses of all these issues done by a variety of economists of differing backgrounds approaches and opinions broadly categorized under the labels Neoclassical Institutional and Marxist although there are overlaps and correspondences that cross ideological and or paradigm boundaries In this book the labels are employed as a guide to the reader with a preference for one approach over the others and as an indication of how chapters in different sections are related in their approaches

Public Sector Economics Richard W Tresch,2021-01-21 Richard Tresch s Public Sector Economics is a new learning and teaching concept for undergraduate public finance courses It is published in two complementary parts The book which contains a unified treatment of the theory of the public sector along with selected examples The companion website included in the price of the book which features a large international Public Sector Example Bank written and updated by Richard Tresch and tied to specific sections in the book This innovative solution to the challenge of conveying the fundamentals of such a wide ranging field allows students the best of both worlds a readable concise and penetrating account of public sector theory along with an evolving set of up to date examples that makes the theory come alive

The Public Economy in Crisis June A. Sekera,2016-07-04 This Brief proposes a new theory of public economics which deemphasizes reliance on the free market and affirms the importance of public goods and services within the context of the democratic process and constitutional governance Public non market production makes up from a quarter to more than half of all economic activity in advanced democratic nation states Yet by imposing market precepts on

the public domain as mainstream economics political science and public administration do public governing capacity is weakened and the democratic system suffers Agencies originally created to meet public needs are being warped into entities whose purpose is to generate revenue and in some cases deliver private profits at public expense Drawing on classic public finance literature this book illustrates the differences between public economy and the market model and why those differences matter Building on this the Brief sketches the elements of a new theory of the public non market and illuminates its connections to the delegation of power and collective provision of resources from the polity This book will be useful to scholars of public economics political science and public administration as well as policy makers and those working in the public sector
