Creating Competent Communicators 71:

The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area. It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today: what is it, why is it important, how can you teach it across a wide range of curriculum areas and grade levels, and does it work? Rather than focusing on how to teach media literacy, Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas.

Interpersonal Communication Shelley D. Lane, 2016-06-23 Interpersonal Communication Competence and Contexts prepares students to communicate successfully in today's fast-paced and complex society through the implementation of a unique competence building model. This highly readable text provides the theories, concepts, and applications in a pedagogically sound format based on a model of communication competence made up of three elements: motivation, knowledge, and skill. Studying interpersonal communication through this distinct framework will provide a foundation for students' motivation to communicate competently, increase their knowledge about communication, and enhance their acquisition and performance of communication skills. Covering a broad range of interpersonal communication themes, including strategic alternatives and solutions to communication challenges and information about friendship, family, romantic, and workplace relationships, this Second Edition presents theories, concepts, and activities with engaging examples and an attention-getting design.

Developing Competent Readers and Writers in the Primary Grades Martha Combs, 1996 This major new entry is a core text for the growing number of reading literacy methods courses which cover grades K through four. The text emphasizes literature-based reading but also discusses the appropriate use of phonics instruction in helping children to become literate.

Checking for Understanding Douglas Fisher, Nancy Frey, 2015-12-18 A teacher presents a lesson and at the end asks students if they understand the material. The students nod and say they get it. Later the teacher is dismayed when many of the students fail a test on the material. Why aren't students getting it? And just as important, why didn't the teacher recognize the problem? In *Checking for Understanding*, Douglas Fisher and Nancy Frey show how to increase students' understanding with the help of creative formative assessments. When used regularly, formative assessments enable every teacher to determine what students know and what they still need to learn. Fisher and Frey explore a variety of engaging activities that check for and increase understanding, including interactive writing, portfolios, multimedia presentations, audience response systems, and much more. This new 2nd edition of *Checking for Understanding* has been updated to reflect the latest thinking in formative assessment and to show how the concepts apply in the context of Fisher and Frey's work on gradual release of responsibility, guided instruction, formative assessment systems, data analysis, and quality instruction. Douglas Fisher and Nancy Frey are the creators of the Framework for Intentional and Targeted FIT Teaching. They are also the authors of numerous ASCD books, including *The*
