Creating Business Value With Information Technology Challenges And Solutions:

Creating Business Value with Information Technology: Challenges and Solutions Shin, Namchul, 2002-07-01 Questions on the business value of information technology IT which have been raised by managers and researchers for the last decade are not settled yet Firms invest in IT to improve their business performance However some firms fail to improve their business performance while others succeed The overall value of IT varies enormously from firm to firm Computerization does not automatically create business value but it is one essential component that should be coupled with organizational changes such as new strategies new business processes and new organizational structure *Creating Business Value with Information Technology Challenges and Solutions* aims to solicit the studies that yield significant new insights into the business value of IT

Decision-Making Support Systems: Achievements and Challenges for the New Decade Mora, Manuel, Forgionne, Guisseppi A., Gupta, Jatinder N. D., 2002-07-01 Annotation The book presents state of the art knowledge about decision making support systems DMSS Its main goals are to provide a compendium of quality chapters on decision making support systems that help diffuse scarce knowledge about effective methods and strategies for successfully designing developing implementing and evaluating decision making support systems and to create an awareness among readers about the relevance of decision making support systems in the current complex and dynamic management environment

E-commerce and Cultural Values Theerasak Thanasankit, 2003-01-01 There is substantial interest in research in developing countries especially in the use implementation and development of information technology and systems Many researchers have been moving toward an understanding of indigenous social and cultural structures and how they influence the use and development of information systems *E Commerce and Cultural Values* addresses these issues and brings together scholars to share their expertise on different aspects of the social side of e Commerce and information systems and how they impact the cultural values of a society

Data Mining John Wang, 2003-01-01 *Data Mining Opportunities and Challenges* presents an overview of the state of the art approaches in this new and multidisciplinary field of data mining The primary objective of this book is to explore the myriad issues regarding data mining specifically focusing on those areas that explore new methodologies or examine case studies This book contains numerous chapters written by an international team of forty four experts representing leading scientists and talented young scholars from seven different countries

Digital Bridges: Developing Countries in the Knowledge Economy Afele, John, 2002-07-01 Globalization and global equity are built on the premise of peace The causes of many divisions and tensions in human communities lie in the imagined or real gain of financial or material assets of some elements of the community to be at the expense of others The global community however lacks clear definitions and methods of stability whether political economic or social *Digital Bridges Developing Countries in the Knowledge Economy* provides insight into the methods and theories behind the globalization of information technologies

Web-Enabled Systems Integration: Practices and Challenges Dahanayake, Ajantha, Gerhardt, Waltraud, 2002-07-01

The advances of the WWW have dramatically increased the need for efficient and flexible mechanisms to provide integration methods for multiple information sources which has caused a need for a careful integration of the concepts and systems. It is of great importance for issues and concerns to be identified and handled in order to ensure the continuous building of systems for ever changing technology and business requirements.

Web Enabled Systems Integration Practices and Challenges consists of a collection of quality research papers that describe original ideas and insights associated with the task of integration. Information Resources Management Journal, 2003

Advances in Software Maintenance Management Macario Polo, Mario Piattini, Francisco Ruiz, 2003. *Advances in Software Maintenance Management Technologies and Solutions* is a compilation of chapters from some of the best researchers and practitioners in the area of software maintenance. The chapters in this book are intended to be useful to a wide audience where software maintenance is a mandatory matter for study. Computational Intelligence in Control Masoud Mohammadian, Xin Yao, 2003. The problem of controlling uncertain dynamic systems which are subject to external disturbances, uncertainty and sheer complexity is of considerable interest in computer science, operations research and business domains. *Computational Intelligence in Control* is a repository for the theory and applications of intelligent systems techniques. **Journal of Database Management**, 2003

Information Communication Technologies, 2008. This collection meets these research challenges, compiling breaking research in the pivotal areas of social adaptation to information technology. It covers ad hoc networks, collaborative environments, e-governance and urban information systems case studies, empirical analysis and conceptual models. Over 300 chapters contributed by experts, this six-volume compendium will provide any library's collection with the definitive reference on ICTs. Provided by publisher. American Book Publishing Record, 2003

Journal of Economic Literature, 2004

Choice, 2004

Management Information Systems Kenneth C. Laudon, Jane Price Laudon, 2006. It's not business as usual anymore, that's why you need this seventh edition. Businesses can no longer survive without becoming digital. The Laudon's is the world's top-selling MIS text. Here you'll find opportunities to build the skills and acquire the knowledge you'll need to use information systems successfully.
