Creating Inclusive Adult Learning Environments Elizabeth J. Tisdell, 1995 *Creating a Place for Adult Learners in Higher Education* Amy D. Rose, Jovita M. Ross-Gordon, Carol E. Kasworm, 2023-12-29 *Creating a Place for Adult Learners in Higher Education* offers deep insights into how to attract, teach, support, and retain students over the age of 25, an important yet often overlooked student group. Comprehensive in scope, this book covers all the main aspects of adult students' relationships with higher education institutions: recruitment, admissions, and financing; course and program provision; and teaching approaches and student support, retention, and completion. The discussion is bolstered by chapters of analysis on adult student demographics, including both diversities and commonalities; exploration of leadership challenges; and discussion of measurements of success. Drawing from the most up-to-date research as well as practical experience and descriptions of best practices by programs historically serving adults, the authors provide a broad set of strategies and recommendations to place adult students at the center of the educational process. Higher education leaders, practitioners, and administrators will find this book an invaluable resource as they seek to better account for and support this key student group, which now comprises approximately 30% of the US undergraduate population.

Understanding the Adult Learner Alisa Belzer, Brian Dashew, 2023-07-03 Adults seek out learning for very different reasons in different contexts, and this book is intended to support adult educators' development in responding to this rich array. There is no single way to be an adult learner, and so it should not be surprising that there is no single way to be an adult educator. However, the authors believe that all educators must demonstrate a commitment to meeting adult learners where they are. Adult educators should help learners move forward, not only with new content, knowledge, information, and skills, but also with new ways of making meaning and seeing themselves, their role, and the world. This volume introduces many theories and concepts that can help adult educators do this effectively.
