Innovative Methods of Teaching and Learning Chemistry in Higher Education Ingo Eilks,Bill Byers,2015-11-06

Two recent initiatives from the EU namely the Bologna Process and the Lisbon Agenda are likely to have a major influence on European Higher Education It seems unlikely that traditional teaching approaches which supported the elitist system of the past will promote the mobility widened participation and culture of life long learning that will provide the foundations for a future knowledge based economy There is therefore a clear need to seek new approaches to support the changes which will inevitably occur The European Chemistry Thematic Network ECTN is a network of some 160 university chemistry departments from throughout the EU as well as a number of National Chemical Societies including the RSC which provides a discussion forum for all aspects of higher education in chemistry This handbook is a result of one of their working groups who identified and collated good practice with respect to innovative methods in Higher Level Chemistry Education It provides a comprehensive overview of innovations in university chemistry teaching from a broad European perspective The generation of this book through a European Network with major national chemical societies and a large number of chemistry departments as members make the book unique The wide variety of scholars who have contributed to the book make it interesting and invaluable reading for both new and experienced chemistry lecturers throughout the EU and beyond The book is aimed at chemistry education at universities and other higher level institutions and at all academic staff and anyone interested in the teaching of chemistry at the tertiary level Although newly appointed teaching staff are a clear target for the book the innovative aspects of the topics covered are likely to prove interesting to all committed chemistry lecturers

Forthcoming Books Rose Army,2001 The American System of Criminal Justice George F. Cole,Christopher E.

Smith,2004 This classic best seller commonly referred to as The Eagle encourages students to become better citizens to determine what Justice means in our society and what role individuals play This text examines criminal justice as an interdisciplinary endeavor sharing elements from criminology sociology law history psychology and political science It challenges students to balance the mechanics and system of criminal justice with the human side of the story Cole and Smith present an exciting and relevant introduction to the field of criminal justice The text combines solid research and intellectual rigor in an approachable manner with detailed attention to current and compelling events to help students appreciate the many aspects of the discipline and how they can participate in the system as citizens of the United States
