PSYCHIATRY AND CRIMINAL CULPABILITY How do we distinguish between sin and sickness Few cases in recent memory so well typify the current confusion over this question as that of Jeffrey Dahmer The confessed killer of fifteen young men Dahmer had sex with and cannibalized his victims bodies Yet because he was not found to be mentally ill the threshold requirement in tests of legal insanity he was convicted and sentenced to 936 years imprisonment How is it that such a severely disturbed person as Dahmer is adjudged sane and therefore culpable while Twinkiedefense killer Dan White and would be presidential assassin John Hinckley Jr are deemed

not guilty by reason of insanity What are the origins of tests for criminal responsibility and how is mental illness defined under them Can causal links be shown to exist between specific crimes and disorders Psychiatry and Criminal Culpability explores in depth these questions and many others at the heart of one of the most controversial issues in our criminal justice system today Throughout Dr Ralph Slovenko an acknowledged expert whose professional experience straddles both the worlds of psychiatry and the law brings a wealth of scholarship and direct experience to bear on the subject Citing numerous landmark cases and historical formulations of criminal responsibility dating back to biblical times he traces the evolution of current legal and psychiatric notions of culpability and the relationship between culpability and insanity Writing for both a mental health and legal audience Dr Slovenko clearly and eloquently addresses a wide range of important topical issues He explains the distinctions between the defenses of not guilty by reason of insanity guilty but mentally ill and diminished capacity He identifies the types of mental illness that currently qualify under the test of criminal responsibility including disorders that psychiatrists do not regard as psychotic but which nevertheless many experts assert negate responsibility He explores the role of the mental health professional as an expert character witness in cases where it is uncertain whether the accused committed the crime in question And much more Fascinating thought provoking and enlightening Psychiatry and Criminal Culpability helps guide mental health and legal professionals through the moral and technical complexities of one of the knottiest issues of our day

author's commentary **The Creativity Research Handbook** Mark A. Runco, 1997 For years the research on creativity has been divided into person process product and press environment foci However the field is now much more extensive and diverse than it was when this scheme was proposed and these four categories no longer capture its essence The Creativity Research Handbook shows how extensive and diverse the field has become The Handbook contains extensive reviews and is intended to provide a comprehensive review of creativity research first by the breadth of coverage of the chapters and second by the depth and coverage within each chapter The Handbook is divided into two parts the first disciplinary and the second topical The approach is a comprehensive one authors do not focus on their own models or theories but instead give complete overviews The disciplinary structure allows a more sensitive and accurate placement of research The disciplinary framework also facilitates exchanges with the wider scholarly community research on creative thinking for example shares assumptions with the cognitive sciences and the disciplinary assignment can help individuals studying creativity to benefit from those sciences Several of the contributions demonstrate how creativity research has benefited from such disciplinary connections Part 2 contains six topical chapters each of them focuses on one critical topic *Medical and Health Care Books and Serials in Print* ,1987 Wahnsinnig genial- der Mad Scientist Reader Torsten Junge, 2004
