Die Klabische Chinesische Mythologie:

Die klassische chinesische Mythologie Wolfgang Münke,1976 **Chinese Mythology** Anne Birrell,1999-04-26 In Chinese Mythology Anne Birrell provides English translations of some 300 representative myth narratives selected from over 100 classical texts many of which have never before been translated into any Western language Organizing the narratives according to themes and motifs common to world mythology Birrell addresses issues of source dating attribution textual variants multiforms and context Drawing on exhaustive work in comparative mythology she surveys the development of Chinese myth studies summarizes the contribution of Chinese and Japanese scholars to the study of Chinese myth since the 1920s and examines special aspects of traditional approaches to Chinese myth The result is an unprecedented guide to the study of Chinese myth for specialists and nonspecialists alike **Political Prophecies in Mongolia in the 17-20th Centuries** Alice Sárközi,1992 **The Chinese Sky during the Han** Xiaochun Sun,Jacob Kistemaker,2021-09-13 A reconstruction of the Chinese sky of two thousand years ago based on analysis of the first star catalogue in China and other sources Presented in six well sized star maps for 100 BC it is especially important for the history of astronomy The Han sky with five times more constellations than Ptolemy knew reflects diverse human activities The way in which constellations were grouped discloses a systematic cosmology uniting universe and the state The work of the three Han schools is comparable to Ptolemy s Almagest With three detailed Appendices on the constellations of the three schools well illustrated to demonstrate the relation between sky and human society this book is valuable not only for astronomy historians and sinologists but in general for scholars interested in the ancient cultures of Asia **Heaven and Earth in Early Han Thought** John S. Major,1993-08-03 The Huainanzi has in recent years been recognized by scholars as one of the seminal works of Chinese thought at the beginning of the imperial era a summary of the full flowering of early Taoist philosophy This book presents a study of three key chapters of the Huainanzi The Treatise on the Patterns of Heaven The Treatise on Topography and The Treatise on the Seasonal Rules which collectively comprise the most comprehensive extant statement of cosmological thinking in the early Han period Major presents for the first time full English translations of these treatises He supplements the translations with detailed commentaries that clarify the sometimes arcane language of the text and presents a fascinating picture of the ancient Chinese view of how the world was formed and sustained and of the role of humans in the cosmos

China's Seaborne Trade with South and Southeast Asia (1200-1750) Roderich Ptak,2024-12-11 This second selection of studies by Professor Ptak focuses on Chinese maritime trade in the medieval and early modern periods The first section deals with contacts between China and individual places in particular Timor the Sulu Islands southern India and the islands of the Indian Ocean Chinese geographical and other accounts of these areas and the trade routes leading to them are examined and where possible compared with Arabic and Western works from the colonial period The second part looks at trade in specific commodities such as sandalwood coral horses tortoise shell ebony cloves and tea Relevant Chinese terms the uses of each

commodity and the production and distribution are analysed Both qualitative and quantitative information is drawn from the sources and it is demonstrated that many trade items were much more significant in international business than has been thought At the same time these studies highlight the importance of Chinese consumption in driving world commodity flows

Chinese Religion Laurence G. Thompson, Gary Seaman, 1993 **Fiktion oder Wirklichkeit?** Maria Rohrer, 2005 Die Arbeit behandelt eine für lange Zeit in Vergessenheit geratene Sammlung von fünfzig Palastliedern die einer der mächtigsten Kaiserinnen der Song Dynastie zugeschrieben werden Die Quelle wird in ihren historischen und literarischen Kontext eingeordnet Anhand intertextueller Interpretationen einzelner Palastlieder sowie einer Analyse der dichterischen Themen und Motive wird exemplarisch eine Annäherung an das bislang nahezu unbekannte Palastlied Genre unternommen mit dem Ziel eine Poetik für dieses Genre zu erstellen Die geplante Studie versteht sich als Fallstudie Sie rückt die jahrtausendlang gepflegte Tradition des Palastliedes als Quelle der Sozial und Kulturgeschichte des Hoflebens im Alten China in den Blickpunkt Der Anhang enthält die erste deutsche Gesamtübersetzung des Werkes **Science and Civilisation in China, Part 9, Textile Technology: Spinning and Reeling** Joseph Needham, Dieter Kuhn, 1988-06-09 This study the first of two parts gives a comprehensive account of Chinese textiles and textile technology and deals with the evolution of bast fibre spinning and silk reeling in the history of China These operations are the basic techniques in the production of yarn and thread pre requisite to weaving and any study of Chinese textile technology must start with the raw material obtained from fibre plants such as hemp ramie jute cotton etc and silk reeled off from cocoons of the domestic silkworm The time span covered runs from the neolithic to the nineteenth century Archaeological and pictorial evidence the bulk of it hitherto unpublished in the West is brought together with Chinese textual sources which are extensively translated and interpreted to illustrate Chinese achievements in this field Professor Kuhn's study reveals the way in which Chinese textile technological inventiveness has influenced textile production in other regions of the world and in medieval Europe It explains how textile technology reached its high point between the tenth and thirteenth centuries and attempts to indicate the reasons for its subsequent relative decline The development of the textile industry in Europe was a key factor in the rise of capitalism In the case of China after Sung times textile technology and the organisation of textile labour may help indicate why such a development did not take place in China Chinese Myth and Culture Anne Birrell, 2006 Journal of Chinese Religions, 1991 *The Culture of Sex in Ancient China* Paul R. Goldin, 2002 The subject of sex was central to early Chinese thought Discussed openly and seriously as a fundamental topic of human speculation it was an important source of imagery and terminology that informed the classical Chinese conception of social and political relationships This sophisticated and long standing tradition however has been all but neglected by modern historians In *The Culture of Sex in Ancient China* Paul Rakita Goldin addresses central issues in the history of Chinese attitudes toward sex and gender from 500 B C to A D 400 A survey of major pre imperial sources including some of the most revered and influential texts in the Chinese tradition reveals

the use of the image of copulation as a metaphor for various human relations such as those between a worshiper and his or her deity or a ruler and his subjects In his examination of early Confucian views of women Goldin notes that while contradictions and ambiguities existed in the articulation of these views women were nevertheless regarded as full participants in the Confucian project of self transformation He goes on to show how assumptions concerning the relationship of sexual behavior to political activity assumptions reinforced by the habitual use of various literary tropes discussed earlier in the book led to increasing attempts to regulate sexual behavior throughout the Han dynasty Following the fall of the Han this ideology was rejected by the aristocracy who continually resisted claims of sovereignty made by impotent emperors in a succession of short lived dynasties Erudite and immensely entertaining this study of intellectual conceptions of sex and sexuality in China will be welcomed by students and scholars of early China and by those with an interest in the comparative development of ancient cultures *Chinese Literature, Essays, Articles, Reviews* ,1987 **Asian Folklore Studies** ,1982
