Care Gaps:

Bridging the Family Care Gap Joseph E. Gaugler, 2021-01-09 *Bridging the Family Care Gap* explores expected future shortages of family caregivers of older persons and identifies potential solutions. The book examines the sustainability and availability of care management models and whether they can be effectively scaled up to meet community needs. It identifies newly emerging policy initiatives at local, state, and federal levels. The book addresses the state of family caregiving science, dissemination, and implementation of promising programs and supports technological innovations and other strategies to offset the family care gap. This edited volume also explores lay healthcare workers as guides, interpreters, and advocates in healthcare systems that provide continuity of contact for family caregivers. Details threats to family caregiving: sociodemographic, chronic disease, and socioeconomic challenges. Presents solutions to the caregiving gap in a systematic, synthesized manner. Addresses the intersection of family caregiving and technology. Discusses chronic disease management to offset and reduce the need for family caregiving. Describes models of caregiver support in work settings. Reimagines the delivery of long-term services and supports with novel initiatives.

Strategic Management of Health Care Organizations Linda E. Swayne, W. Jack Duncan, Peter M. Ginter, 2012-07-17 The 6th edition of this established text is streamlined to a more manageable format with the Appendices moved to the web site and a significant shortening of the main text. There is a greater focus on the global analysis of industry and competition and analysis of the internal environment. In consultation with feedback from their adopters, the authors have concentrated on the fundamentals of strategy analysis and the underlying sources of profit. This reflects waning interest among senior executives in the pursuit of short-term shareholder value. As ever, students are provided with the guidance they need to strategic planning analysis of the health services environment, internal and external, and lessons on implementation with additional discussion of organizational capability, deeper treatment of sustainability and corporate social responsibility, and more coverage of the sources of organizational inertia and competency traps. This edition is rich in new examples from real-world health care organizations. Chapters are brought to life by the Introductory Incidents, Learning Objectives, Perspectives, Strategy Capsules, useful chapter summaries, and questions for class discussion. All cases and examples have been updated or replaced. In this edition, the teaching materials and web supplements have been greatly enhanced with power point slides to give lecturers a unique resource.
