State of the Masses Richard F. Hamilton, Is the consciousness of Americans in the midst of dramatic transformation Or do people think and feel much the same as they have always thought and felt Do most people enjoy their work or hate it Is the American family being replaced by new institutional forms or is it much the same as it was in the 1950 s Have material values been replaced by a postmaterial consciousness in a postindustrial society Are Americans becoming more conservative less conservative or staying about the same State of the Masses asks the important questions Originally published in 1986 this prescient study evaluate the views of social critics neo conservatives neo Marxists post industrialists and the theorists of the little man who puport to describe the nature social conditions outlooks and motivations of the American populace The claims of one group are often diametrically opposed to those of another The authors make the case for which claims can be considered true and which false Hamilton and Wright analyze the contradictory claims and compares their implications with the best social science research and data available at that time They also explore the implications for theories in light of the conflicting portrait the evidence provides The authors conclude with a new perspective for understanding continuities and changes in the United States This is a prescient view of American society during turmoil and a model for how social science research can be used predictively

Olukoya,2016-03-04 Connecting to the God of Breakthroughs offers us uncommon revelations concerning what it takes to obtain breakthroughs from the throne of grace This book will connect you to your needed breakthroughs The author celebrates the God of breakthroughs by portraying His attributes acknowledging His supremacy exalting His magnanimity and highlighting the power of His might This book will boost your faith and energize you spiritually It will surely flag off a season of turn around breakthroughs      **Turnaround Management and Bankruptcy** Jan Adriaanse,Jean-Pierre van der Rest,2017-03-27 Written by leading experts in the field of business finance law and economics this edited volume brings together the latest thoughts and developments on turnaround management and business rescue from an academic judiciary and turnaround insolvency practitioner perspective Turnaround Management and Bankruptcy presents different viewpoints on turnarounds and business rescue in Europe Presenting a state of the art review of failure research in finance such as on bankruptcy prediction causes of decline or distressed asset valuation It also presents the latest insights from turnaround management research as well as giving a contemporary insight into law debates on insolvency legislation reform cross border judicial issues bankruptcy decision making by judges and competition policy in distressed economies Finally the book provides a regional and sector perspective on how the current crisis affects Europe its government policies and industry performance In this way the volume presents a modern interdisciplinary and scholarly overview of the latest insights issues and debates in turnaround management and business rescue developing a European perspective in an attempt to redress the predominance of an American orientation in the academic literature It aims at a wider audience interested in turnarounds and failure such as faculty and students in the fields of law business economics accountancy finance strategic management and marketing but also at judges insolvency practitioners lawyers accountants and turnaround professionals as well as the EU and government officials staff of trade unions and employer s associations      **Kenneth Whiting** Felix Haynes,2023-08-10 Kenneth Whiting was well known in the Navy of his day During his early years after graduating from the Naval Academy he commanded several early submarines and was known as the first man to escape from a downed submarine After being trained to fly by Orville Wright he was the first naval officer to conceptualize a ship that was to become the most important in the US Navy the aircraft carrier After submitting his first three unsuccessful proposals to build such a ship his creativity and aggressiveness were recognized at the start of World War I when he was asked to lead the Navy s First Aeronautical Detachment to France The FAD was the first American unit to travel to Europe and within a few months he negotiated a plan with the French Navy for a system to build naval air stations and train his men in anti submarine warfare from the air When the US Navy Department approved the plan he was transferred to the command of NAS Killingholme on England s North Sea Coast He built Killingholme into the largest naval air station in Britain Returning to the US at the end of the war he found the Navy Department much more willing to talk about building aircraft carriers Upon the

approval of this new ship type he was placed in charge of converting or building the first six Along the way he developed the new systems for the operation of launching and landing aircraft on the new flat flight decks For his developmental work with the first six carriers and commanding two of them he is frequently called the Father of the Aircraft Carrier in books and publications about the ship which was to take the place of the battleship as the king of the seas Along the way naval aviation took advantage of his ability to effectively and smoothly advocate for many of the then fledgling naval aviation s important goals in the public arena Because he had publicly spearheaded much of those goals the battleship admirals who ran the Navy of that era were able to take revenge on him and prevent him from being promoted to admiral rank His tragic death in the middle of World War II became part of the reason his name has been largely forgotten outside the Navy but naval aviators know him because the field where they are all trained Whiting Field NAS in Pensacola is named for him The military exploits of this American sailor are worth recounting but the victories of Whiting and his family racing yachts on Long Island Sound make him even more interesting The goal of this first biography of Kenneth Whiting is to enable those who empower one of today s most important functions naval aviation and the Americans who have benefitted from Whiting s work to remember this hero of naval aviation and submarines
