Caribbean Community: the Struggle for Survival Kenneth Hall, Myrtle Chuck-A-Sang, 2012-03-06 The papers which comprise this publication *The Caribbean Community The Struggle for Survival* represents the Editor's choice from among thousands of articles, books and other commentaries that have provided clear and reasoned responses and solutions to inform and guide Caribbean leadership and the people of the Region. They also take a comprehensive look at regional intergration and serve as a guide to those with an interest in following the development in the Caribbean Community. The book offers prescriptions for our success as a Community which are predicated on advice regarding what our political leaders should do in a normal context of the evolution of the Community. These prescriptions are based on sound scholarship and competent analysis. The book is an invaluable addition to the existing literature on Caribbean integration and should be part of any compendium on the study of the subject.

**The Caribbean Community** Kenneth O. Hall, 2001 **CARICOM Single Market and Economy** Kenneth O. Hall, Myrtle Chuck-A-Sang, 2007 *Post-socialism is Not Dead* Iveta Silova, 2010-12-13 This volume will provide a comparative account of the meanings and processes of post socialist transformations in education by exploring recent theories, concepts and debates on post socialism and globalization in national, regional and international contexts.

Region-building Ludger Kühnhardt, 2010-07-01 After two centuries of nation building the world has entered an era of region building in search of political stability, cultural cohesion and socio economic development. Nations involved in the regional structures and integration schemes that are emerging in most regions of the world are deepening their ambitions with Europe's integration experience often used as an experimental template or theoretical model. Volume I provides a political analytical framework for recognizing the central role of the European Union not only as a conceptual model but also a normative engine in the global proliferation of regional integration. It also gives a comprehensive treatment of the focus, motives and objectives of non European integration efforts. Volume II offers a unique collection of documents that give the best available overview of the legal and political evolution of region building based on official documents and stated objectives of the relevant regional groupings across all continents. Together these volumes are important contributions for understanding the evolution of global affairs in an age when power shifts provide new challenges and opportunities for transatlantic partners and the world community.

Community College Models Rosalind Latiner Raby, Edward J. Valeau, 2009-03-22 Increasingly students worldwide are seeking post secondary education to acquire new skill sets and credentials. There is an explosion of community college models that provide educational opportunities and alternative pathways for students who do not fit the traditional higher educational profile. This book focuses on economic models to help local and national economies develop strong workforce training, humanitarian models to bring about social mobility and peace, transformative models to help institutions expand and keep up with societal needs, and newly created models that respond to the educational and training needs of a constantly changing world. These models seek to capture the imagination

of those who are committed to learning about what works in higher education and in particular the impact community college models are having on the changing nature of world social political and economic landscapes With contributors representing 30 countries this book presents an international perspective

**Caribbean Integration Law** David S. Berry,2014-02-27

Caribbean Integration Law offers a comprehensive legal analysis of the current treaties and rules governing the two main regional organisations in the Caribbean the Caribbean Community CARICOM and the Organisation of Eastern Caribbean States OECS Both organisations are operating under new treaties the Revised Treaty of Chaguaramas and the Revised Treaty of Basseterre respectively which created the CARICOM Single Market and Economy and the OECS Economic Union The single market and economic union were built upon principles of free movement of goods labour and capital and a common external tariff This book reviews the foundations of Caribbean regional integration the institutional frameworks of the two regional organisations and fleshes out the scope and context of the legal systems created by the treaties It also reviews the dispute settlement mechanisms under both treaties including the increasingly active role of the Caribbean Court of Justice which allows persons to enforce their treaty rights directly before the Court The book offers selective comparisons to the current rules governing the European Union and integrates crucial insights from the field of public international law including the law of treaties and international institutional law

**Beyond Fragmentation** Juanita De Barros,Audra Diptee,David Vincent

Trotman,2006 In this book leading scholars pull together some of the most recent research on the key themes of Caribbean history slavery the transition to freedom colonialism and decolonization Although all parts of the Caribbean experienced these phases the manner in which they did so differed significantly in part because of their distinct imperial histories Contemporary fragmentation and insularity have led to significant variations in the region s historiography The contributors examine the divergent historiographical and methodological developments in the British French Spanish and Dutch Caribbean By addressing these four linguistic areas of the Caribbean they aim to overcome the traditional differences imposed by language and in the process to explore hotly debated subjects and new directions in Caribbean scholarship

Caribbean Imperatives Kenneth O. Hall,Denis Benn,2005 With the launch of the CARICOM Single Market and Economy and the Caribbean Court of Justice the Caribbean Community has taken major steps to promote closer and more intensive forms of economic cooperation among its constituent members This effort requires the adoption of innovative approaches to regional governance and creative regional development strategies aimed at maximizing the exercise of sovereignty within the Community and also optimizing the development possibilities of the region The 30th anniversary of the establishment of the Caribbean Community in 2003 marked an important milestone in the historical evolution of regional integration in the Caribbean Caribbean Imperatives focuses on several important topics relevant to the future of the community by addressing issues such as the conception of the Caribbean Community integration theory the exercise of sovereignty the Single Market

and Economy production integration the external relations of the community and the importance of multilateralism for the viability of small states in the international system The analysis contained in the volume is extremely relevant to policy makers in the region in managing the transition to more intensive forms of regional integration aimed at improving the well being of the people of the Caribbean

CARICOM Kenneth O. Hall, Myrtle Chuck-A-Sang, 2010 In *CARICOM Policy Options for International Engagement* the contributors bring a wealth of experience and knowledge in putting forward the critical questions policymakers must consider and answer in charting the course and laying the framework for this coordinated structure and foreign policy plan Divided into four sections the volume firstly presents the perspectives that corroborate the need for collective action The second section focuses on the emerging powers and the need for South to South Cooperation while the third section discusses the external trade negotiations and the impact of the loss of EU preferences and subsidies the EPA and trade negotiations in the WTO and the new CARICOM US trade relations In the fourth and final section the volume is rounded out by an examination of the kind of cooperation that is needed first at the regional level to sustain economic development The need for harmonisation of fisheries policies and the prevention of maritime degradation the preservation of the environment and the need to reverse the effects of climate change the need for a cohesive regional security policy and a viable air transportation industry as well as the legal framework to implement multilateral treaties are all examined as imperative to CARICOM s development of a coordinated regional foreign policy plan

*Re-inventing CARICOM* Kenneth O. Hall, 2003 *Reinventing CARICOM* records the history and evolution of the Caribbean Community CARICOM from its inception in 1973 The book analyses the reasons for the establishment of CARICOM and provides a running commentary on the key issues and contentions which have resulted in the transformation and restructuring of the community over the years of its existence In addition to making available excerpts of the reports of the numerous Heads of Government Conferences the book provides details of the discussions and deliberations of the region s leaders on issues such as free trade the Caribbean Court of Justice and the coordination of foreign policy An added feature is the inclusion of the full drafts of all the major declarations and treaties which have until now been unavailable to the general public By pulling together in one volume these important documents on the integration movement Professor Kenneth Hall has created both an essential research tools as well as an indispensable work of reference

Globalization [2 volumes] Ashish Vaidya, 2005-12-19 A comprehensive collection of cutting edge scholarship on the economic international business political legal and environmental ramifications of globalization

CARICOM Perspective , 2002 *Envisioning Caribbean Futures* Brian Meeks, 2007 Employing critical analysis of Caribbean intellectual thought and of the postcolonial political economy Brian Meeks sets about proposing a manifesto for the future What emerges is a programme for the medium term which is pragmatic in its efforts to deal with the current crisis without engaging in the romanticism of an all encompassing revolutionary transformation Meeks suggests a form of participatory reorganization without necessarily dismantling the

fundamentals of formal democratic organization Particular emphasis is placed on rural agro producers because their empowerment politically and economically resolves the problem of elite domination while creating the conditions for economic democracy He argues finally that the proposals can become the basis for a more fundamental social and intellectual transformation from following Sylvia Wynter man to human based on democracy community and solidarity
