Altered Carbon Richard K. Morgan, 2003-01-01 NEW YORK TIMES BESTSELLER NOW AN EXCITING SERIES FROM NETFLIX The shell that blew a hole in his chest was only the beginning in this tour de force of genre bending a brilliantly realized exercise in science fiction The New York Times Book Review In the twenty fifth century humankind has spread throughout the galaxy monitored by the watchful eye of the U N While divisions in race religion and class still exist advances in technology have redefined life itself Now assuming one can afford the expensive procedure a person s consciousness can be stored in a cortical stack at the base of the brain and easily downloaded into a new body or sleeve making death nothing more than a minor blip on a screen Ex U N envoy Takeshi Kovacs has been killed before but his last death was particularly painful Dispatched one hundred eighty light years from home re sleeved into a body in Bay City formerly San Francisco now with a rusted dilapidated Golden Gate Bridge Kovacs is thrown into the dark heart of a shady far reaching conspiracy that is vicious even by the standards of a society that treats existence as something that can be bought and sold
