Athanasou, Harsha N. Perera, 2020-01-01 This handbook offers a comprehensive review on career guidance with an emphasis on the applied aspects of guidance together with research methods and perspectives It features contributions from more than 30 leading authorities in the field from Asia Africa America Australasia and Europe and draws upon a wide range of career guidance paradigms and theoretical perspectives This handbook covers such subjects as educational and vocational guidance in a social context theoretical foundations educational and vocational guidance in practice specific target groups testing and assessment and evaluation Graduate Careers in Context Ciaran Burke, Fiona Christie, 2018-07-11 In a world where there are increasing concerns about graduate underemployment and likely career trajectories it is not surprising that there is a significant body of literature examining graduate careers in post industrial societies However it has become increasingly evident in recent years that there is a stark disconnect between academics who research employment and education and careers and employability

professionals Graduate Careers in Context brings these two separate groups together for the first time in order to provide a better understanding of graduate careers The book addresses the problems surrounding the graduate labour market and its relationship to higher education and public policy Drawing on varied perspectives the contributors provide a comprehensive examination of issues such as geography mobility and employability before presenting and discussing the benefits of future collaboration between practitioners and academic researchers The interdisciplinary focus of this book will make it of great interest to academics researchers and postgraduate students in the areas of education sociology social policy business studies and career guidance and coaching It should also be essential reading for practitioners who wish to consider their role and responsibilities within the changing higher education market

Handbook of Career Development Gideon Arulmani, Anuradha J. Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08 This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies some of the largest workforces in the world are in the developing world Career guidance is rapidly emerging as a strongly felt need in these contexts If more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development This does not mean that existing ideas are to be discarded Instead an integrative

approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling
