## Caring For Creation:

**Caring for Creation** Paul Douglas, Mitch Hescox, 2016-10-04 Faith Based Solutions to Caring for the Earth Climate change is a confusing and polarizing issue It may also prove to be the most daunting challenge of this century because children the elderly and the poor will be the first to feel its effects The issue is all over the news but what is seldom heard is a conservative evangelical perspective Connecting the dots between science and faith this book explores the climate debate and how Christians can take the lead in caring for God s creation The authors answer top questions such as What s really happening and Who can we trust and discuss stewarding the earth in light of evangelical values Acting on climate change is not about political agendas they say It s about our kids It s about being a disciple of Jesus Christ Capping off this empowering book are practical simple ideas for improving our environment and helping our families and those around us *Caring for Creation* Calvin B. DeWitt, 1998 Christianity must and can provide an effective response to the need for human care of the creation *Creation Care* Douglas J. Moo, Jonathan A. Moo, 2018-02-27 What does the Bible say about the natural world and its place within God s purpose From Genesis to Revelation the Bible reveals a God whose creative power and loving care embrace all that exists from earth and sky and sea to every creature Yet the significance of the Bible s extensive teaching about the natural world is easily overlooked by Christians accustomed to focusing only on what the Bible says about God s interaction with human beings In *Creation Care* father and son team Douglas and Jonathan Moo invite readers to open their Bibles afresh to explore a comprehensive biblical theology of creation care as well as a careful analysis of the most up to date scientific data about the state of our world Following the contours of the biblical storyline they uncover answers to questions such as What is the purpose of the non human creation Can a world with things like predators parasites and natural disasters still be the good world described in Genesis 1 What difference does the narrative of the Fall make for humankind s responsibility to rule over other creatures What difference does Jesus make for our understanding of the natural world How does our call to care for creation fit within the hope for a new heaven and a new earth What is unique about Christian creation care compared with other approaches to environmental issues How does creation care fit within the charge to proclaim the gospel and care for the poor Rather than merely offering a response to environmental concerns *Creation Care* invites readers into a joyful vision of the world as God s creation in which they can rediscover who they truly are as creatures called to love and serve the Creator and to delight in all he has made \_\_\_\_\_ Part of the Biblical Theology for Life series this practical and robust book will help you develop an effective and faithful Christian response to the scriptural teaching about the created world **The Care of Creation** R. J. Berry, 2000-06-13 There is a belated awareness that scientific and political solutions alone are inadequate when dealing with environmental damage This study from a Christian perspective focuses on active ways to address the state the planet is in **John Stott on Creation Care** R.J. Lee,2019-09-23 *Caring for Creation* argues that progress has been made in areas such as protection of endangered species the sustainable agriculture movement and recycling While much remains to be done in these and other areas this progress is cause for optimism about the future In substantial measure the American experience is the story of environmental destruction and degradation deforestation annihilation of species contamination of surface water and ground water and much more At the same time the American experience is also the story of triumph the preservation of threatened and endangered species such as American bison and bald eagles new farming methods that reduce environmental impact impressive gains in recycling This volume documents those crises and successes Today we face new challenges among them climate change which if not slowed down will have devastating consequences There is also more work to be done in areas in which progress has been made including protection of endangered species and recycling Yet this volume argues as we look at the progress that has been made we may embrace the future with hope The work contends that if we live our lives in ways conducive to the wellbeing of the biotic communities that sustain life and support candidates for public office and organizations committed to environmental protection our children and grandchildren will have the opportunity to experience the goodness of a flourishing creation
