Candid Science V Conversations With Famous Scientists:

Candid Science V: Conversations With Famous Scientists Istvan Hargittai, Balazs Hargittai, 2005-04-20 Candid Science V Conversations with Famous Scientists contains 36 interviews with well known scientists including 19 Nobel laureates Wolf Prize winners and other luminaries These in depth conversations provide a glimpse into some of the greatest achievements in science during the past few decades featuring stories of the discoveries and showing the human drama behind them The greatest scientists are brought into close human proximity as if readers were having a conversation with them This volume departs from the previous ones in that it contains interviews with mathematicians in addition to physicists chemists and biomedical scientists Another peculiarity of this volume is that it includes nine interviews from another project the collection of the late Clarence Larson former Commissioner of the Atomic Energy Commission and his wife Jane Larson Tapes

Candid Science Vi: More Conversations With Famous Scientists Istvan Hargittai, Magdolna Hargittai, 2006-10-23 Candid Science VI concludes the series by narrating the conversations with famous scientists from the biomedical sciences chemistry and physics There are 31 Nobel laureates and 11 other luminaries among them The scientists are in the field of biomedical sciences chemistry and physics a

Candid Science Ii: Conversations With Famous Biomedical Scientists Istvan Hargittai, 2002-03-15 This invaluable book contains 36 interviews including 26 with Nobel laureates It presents a cross section of biomedical science a field that has been dominant in science for the past half century The in depth conversations cover important research areas and discoveries as well as the roads to these discoveries including aspects of the scientists work that never saw publication They also bring out the humanness of the famous scientists the reader learns about their backgrounds aspirations failings and triumphs The book is illustrated with snapshots of the conversations and photos provided by the interviewees It is a follow up to the critically acclaimed Candid Science Conversations with Famous Chemists by the same author a

Candid Science II István Hargittai, 2002 This invaluable book contains 36 interviews including 26 with Nobel laureates It presents a cross section of biomedical science a field that has been dominant in science for the past half century The in depth conversations cover important research areas and discoveries as well as the roads to these discoveries including aspects of the scientists work that never saw publication They also bring out the humanness of the famous scientists the reader learns about their backgrounds aspirations failings and triumphs The book is illustrated with snapshots of the conversations and photos provided by the interviewees It is a follow up to the critically acclaimed Candid Science Conversations with Famous Chemists by the same author

The Martians of Science István Hargittai, 2008 Hargittai tells the story of five remarkable Hungarians Wigner won a Nobel Prize in theoretical physics Szilard was the first to see that a chain reaction based on neutrons was possible initiated the Manhattan Project but left physics to try to restrict nuclear arms von Neumann could solve difficult problems in his head and developed the modern computer for more complex problems von Kármán became the first director of NASA's Jet Propulsion Laboratory providing the scientific basis for the U S

Air Force and Teller was the father of the hydrogen bomb whose name is now synonymous with the controversial Star Wars initiative of the 1980s

Candid Science Iv: Conversations With Famous Physicists Magdolna Hargittai, Istvan Hargittai, 2004-04-08 Candid Science IV Conversations with Famous Physicists contains 36 interviews with well known physicists including 20 Nobel laureates Templeton Prize winners Wolf Prize winners and other luminaries Physics has been one of the determining fields of science in the past 100 years playing a conspicuous role not only in science but also in world politics and economics These in depth conversations provide a glimpse into the greatest achievements of physics during the past few decades featuring stories of the discoveries and showing the human drama behind them The greatest physicists are brought into close human proximity as if readers were having a conversation with them The interviewees span a wide range of scientists from such early giants as Eugene Wigner and Mark Oliphant to members of the youngest generation such as the 2001 Nobel laureate Wolfgang Ketterle The list includes famous personalities of our time such as Steven Weinberg Leon Lederman Norman Ramsey Edward Teller John Wheeler Mildred Dresselhaus Maurice Goldhaber Benoit Mandelbrot John Polkinghorne and Freeman Dyson a

Microphone In Hand: Interviews, Forewords, Reviews: Revelations From A Scientist And About A Scientist Istvan Hargittai, 2025-05-05 This book offers a panoramic view of science through the perspective of Istvan Hargittai an internationally renowned Hungarian researcher and educator in physical chemistry He has had worldwide collaboration in molecular science symmetry studies and science history bridging East and West during these experiences He has talked with hundreds of luminaries of science and mathematics in physics chemistry biology medicine pharmacology and materials science among them one hundred Nobel laureates but here Hargittai himself was the interviewee in 23 conversations They have appeared in the print media radio and television in diverse international forums These conversations cut across political systems and geographical areas and reflect his scientific experience in European countries the United States and Russia spanning over 4 decades and his life experiences over 8 decades His scientific and writing output has included numerous books in structural chemistry symmetry the American and Soviet nuclear projects James D Watson Edward Teller emigration candid conversations with famous scientists 4 great cities of science the culture art and nature of scientific discovery the traits of scientific discoverers and the Nobel Prize Some of the greatest scientists of our time wrote forewords to his books and commented on his writings and other achievements Reviews of his books have appeared in Nature Scientific American Physics Today Chemistry and Industry Lancet The Mathematical Intelligencer and elsewhere This volume dips into all these aspects of a scientific life and career and offers education through entertainment for a broadest possible readership interested in what science is and what and how it does

Science In Moscow: Memorials Of A Research Empire Istvan Hargittai, Magdolna Hargittai, 2019-08-20 The statuary and monuments catalogued in this impressive body of work are accompanied by descriptions of the subjects their work and achievements Chemistry World Moscow is the center of science and higher education of Russia and is also an international hub of science

There have been milestone achievements of science in Russia and the Soviet Union especially in the areas of physics chemistry mathematics the conquest of space various technologies and medicine However the scientists and inventors often created in isolation and have become less known than their discoveries would justify At the same time there is no other city in the world that has so many memorials honoring scientists as Moscow There is a caveat in that political considerations have often influenced who was remembered and who was not This book presents statues memorial plaques and historical buildings Not only celebrated excellences are mentioned but also some of the greats that perished during the years of terror The book is full of human drama and 750 photos illustrate the narrative Science in Moscow follows Budapest Scientific and New York Scientific and is the third in the series about memorials of scientists in great cities of the world *Women Scientists* Magdolna Hargittai,2015-03-04 A compilation of sixty biographical sketches of influential female scientists discussing topics like the state of the modern female scientist and the underrepresentation of women at the higher levels of academia *New York Scientific* István Hargittai, Magdolna Hargittai,2017 New York city is a world center of science and the memorabilia presented introduce the reader to a culture of learning and of creating new knowledge venues of great medicine and a number of exceptional schools graduating world leaders in science **Chemical Heritage** ,2007 The DNA Doctor István Hargittai,2007 Three in depth conversations with the Nobel laureate co discoverer of the double helix and the first director of the Human Genome Project cover a wide range of topics including progress in science the scientist s role in modern life women in science scientific ethics terrorism religion multiculturalism and how genetics may improve human lives Reflections by further illustrious contributors to the scientific revolution and the author s commentaries provide a glimpse into the thinking of scientists who largely determine the progress of humankind in our time *Choice* ,1997 *The British National Bibliography* Arthur James Wells,2007 *The New Walford Guide to Reference Resources* Ray Lester,2005 The New Walford highlights the best resources to use when undertaking a search for accurate and relevant information saving you precious time and effort For those looking for a selective and evaluative reference resource that really delivers on its promise look no further In addition to print sources The New Walford naturally covers an extensive range of e reference sources such as digital databanks digital reference services electronic journal collections meta search engines networked information services open archives resource discovery services and websites of premier organizations in both the public and private sectors But rather than supplying a list of all available known resources as a web search engine might The New Walford subject specialists have carefully selected and evaluated available resources to provide a definitive list of the most appropriate and useful With an emphasis on quality and sustainability the subject specialists have been careful to assess the differing ways that information is framed and communicated in different subject areas As a result the resource evaluations in each subject area are prefaced by an introductory overview of the structure of the relevant literature This ensures that The New Walford is clear easy to use and intuitive Publisher History of Science in America, News and Views ,2002 **Az öt**
