International Journal of Comic Art, 2000 Ploughshare Village Stevan Harrell, 2014-11-01 This anthropological study of a workers village in North Taiwan makes an important contribution to the comparative literature on Chinese and Taiwanese social organization Based on fieldwork conducted in 1973 and 1978 the study is exceptional not only because of its excellent data but also because the village itself was unique Unlike villages previously studied and written about Ploughshare was neither an agricultural nor a fishing village but rather one whose inhabitants earned their living mostly

from coal mining knitting and other non agrarian activities Culture and environmental context thus shaped social organization there differently than in other Taiwanese villages This ethnography links local data to surrounding socioeconomic spheres it shows the village s relationship to its region to Taiwan as a whole and to the international economy It also captures an important point in time as Taiwan was undergoing the economic miracle that brought it into the ranks of developed countries Stevan Harrell s new preface highlights changes not only in the village over the last several decades but also in the ways that anthropologists think about culture and Taiwan Ploughshare Village with its rich descriptions and analyses will be of value to anthropologists sociologists economists and China specialists **Taiwan** Robert Storey,1994 Third and revised edition of travel guide first published in 1987 A compact and practical guide to the dynamic nation of Taiwan featuring cultural and historical background information tips for businesspeople and details of accommodation and restaurants Also includes hints on things to see and do 60 maps listings in Chinese script and Pinyin throughout and an index
