## **Cannibalism The Last Taboo:**

*Cannibalism* Brian Marriner, 1992      **A History of Cannibalism** Nathan Constantine, 2006-06-26 Desperation duty and desire the three primary motives for breaking what is the oldest taboo in the Western world cannibalism This book investigates all three and presents startling evidence that will challenge cultural and moral perceptions as never before It explains how in some societies duty cannibalism has been integral to existence and viewed as both necessary and socially acceptable If most people find such a concept difficult to comprehend they might just be able to reserve judgement on those driven to eat companions out of sheer desperation in order to survive But by far the most disturbing of the three types is desire cannibalism practiced by men such as Albert Fish and Ed Gein who ate human flesh simply because they wanted to If the second type of cannibalism shows what we humans are capable of under extreme stress this third gives a chilling insight into what some of us require for emotional and sexual gratification *A History of Cannibalism* treats seriously and with great erudition and understanding a subject that causes many people to recoil in horror and disbelief It examines the various and sometime conflicting motives and assesses the background to many notorious cases It offers no easy answers but a fascinating insight into the forces that lie deep within the human psyche      *Cannibals* Joseph Cummins, 2001 Here collected for the first time in one volume are twenty accounts of humans eating humans true stories that separate fact from fiction exploring human depravity and the fight for survival In *Cannibals Shocking True Tales of the Last Taboo on Land and at Sea* Joseph Cummins has assembled some of the most dramatic incidents of cannibalism in history *Cannibals* draws from a powerful account of the disastrous Donner party expedition in the snows of the Sierra Nevada in 1847 from Nathaniel Philbrick's bestseller *In the Heart of the Sea* about the wreck of the whaleship *Essex* in the South Pacific and from Piers Paul Read's classic *Alive* which relates the tragic aftermath of the crash of a Uruguayan airliner in the high Andes in 1972 But Cummins also brings together little known and equally shocking true accounts how marauding gangs of cannibals circa 1150 A D may have destroyed a flourishing Southwestern civilization how modern forensic evidence revealed the horrifying truth behind the vanished 1845 expedition of Arctic explorer John Franklin how the Japanese practiced cannibalism on Allied soldiers during World War II and much more From the serial cannibals of post World War I Germany to the current controversy over the prevalence of ritual cannibalism in history *Cannibals* is both a dramatic document and a chance for us to learn more about this mysterious and little understood activity 6 1 4 x 9 1 4 288 pages      ***Eat Thy Neighbour*** Daniel Diehl, Mark P Donnelly, 2012-05-30 Cannibalism is unquestionably one of the oldest and deepest seated taboos Even in an age when almost nothing is sacred religious moral and social prohibitions surround the topic But even as our minds recoil at the mention of actual acts of cannibalism there is some dark fascination with the subject Appalling crimes of humans eating other humans are blown into major news stories and gory movies both Hitchcock's *Psycho* and *The Texas Chainsaw Massacre* were based on the crimes of Ed Gein who is profiled along with others in this book In *Eat Thy Neighbour* the authors put the

only from theoretical perspectives but also from the experience of those who are part of transitions on a regular basis in their everyday lives The notion of otherness is central to the articles in this book The definition and interpretation of cultural others become part and parcel of the process of negotiation of bodies and identities While the other TM is marked by outward bodily signs spaces taboos and cultural practices the self is empowered by resisting submission to dominant modes and descriptions Deconstructing boundaries becomes part of the project of redefining the self This book will appeal to academics and researchers in communications cultural studies sociology health sciences anthropology literature and applied linguistics
