Cannon Cinemas:

Cannon Cinemas Philip D. Turner, 1997 This book charts the rise and fall of one of Britain's fastest growing cinema groups which at its height controlled nearly 900 screens the largest in the UK and Netherlands together with substantial theatre operations in Germany Italy Israel and the US It looks at the Cannon Group beginnings and at some of the people and factors behind the group's meteoric rise Additionally there is illustrated examination of the circuit's picture houses highlighting some of the more definitive trademarks of the Cannon legacy including the cinema frontages and facades the foyers auditoria and projection equipment using many previously unpublished photos Included too is a surface account of the Frank Verity designed Haymarket flagship the former 1927 built Carlton Theatre acquired by Cannon Classic in 1982

Screening the World Stuart Hanson, 2019-07-26 This book charts the development of the multiplex cinema as the pre-eminent form of film exhibition across the world Going from its origins in the USA in the 1960s to its expansion overseas from the mid 1980s across Europe Australia and other parts of Asia Pacific the book considers the emergence of a series of initially regional then national and then international exhibition circuits However more than a consideration of US overseas expansion on the part of companies this book examines the hegemony of the multiplex as a cultural and business form arguing for its significance as a phenomenon that has transcended national and global boundaries and which has become the predominant venue for film viewing Implicit in this analysis is a recognition of the domination of US media multinationals and Hollywood cinema and the development of the multiplex cinema as symbolic of the extension and maintenance of the USA's cultural and economic power With case studies ranging from European countries such as Belgium France Germany and The Netherlands to Pacific Asian countries such as Australia China Japan and South Korea this book is the first to explore the development of multiplexes on a global scale

Cineplex Odeon Philip Turner, 1998 Examines the roller coaster rise fall and re-emergence of one of North America's more enigmatic exhibition phenomena co-founded in Canada in 1977 by entertainment lawyer turned film producer Garth Drabinsky together with industry veteran Nathan A Taylor Cineplex Corporation had been among the first to unveil a largely unprecedented concept before the movie going public the cinema megaplex opening with a modest 18 screen theatre in downtown Toronto's Eaton Centre shopping mall The book looks at the birth and progress of the Canadian exhibitor and at elements of its plush theatre circuit built primarily upon the determination of one man and a multinational And with the aid of some previously unpublished photos examined here too is an overview of the corporation's fledgling Gallery circuit Cineplex Odeon's short-lived UK subsidiary the dozen locations of which became surrendered initially to Cannon In 1990

Odeon Cinemas 2 Allen Eyles, 2002 The old saying does often seem to hold true the rich get richer while the poor get poorer creating a widening gap between those who have more

and those who have less The sociologist Robert K Merton called this phenomenon the Matthew effect named after a passage in the gospel of Matthew Yet the more closely we examine the sociological effects of this principle the more complicated the idea becomes Initial advantage doesn't always lead to further advantage and disadvantage doesn't necessarily translate into failure Does this theory need to be revisited Merton's arguments have significant implications for our conceptions of equality and justice and they challenge our beliefs about culture education and public policy His hypothesis has been examined across a variety of social arenas including science technology politics and schooling to see if in fact advantage begets further advantage Daniel Rigney is the first to evaluate Merton's theory of cumulative advantage extensively considering both the conditions that uphold the Matthew effect and the circumstances that cause it to fail He explores whether growing inequality is beyond human control or disparity is socially constructed and subject to change Reexamining our core assumptions about society Rigney causes us to rethink the sources of inequity Hollywood's Embassies Ross Melnick, 2022-04-26 Winner 2024 Culbert Family Book Prize International Association for Media and History Winner 2022 Richard Wall Memorial Award Theatre Library Association Beginning in the 1920s audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies These theaters aimed to provide a quintessentially American experience Outfitted with American technology and accoutrements they allowed local audiences to watch American films in an American owned cinema in a distinctly American way In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo Ross Melnick considers these movie houses as cultural embassies He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging selling American ideas products and power especially during fractious eras Melnick demonstrates that while Hollywood's marketing of luxury and consumption often struck a chord with local audiences it was also frequently tone deaf to new social cultural racial and political movements He argues that the story of Hollywood's global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization Instead it is one of negotiation booms and busts successes and failures adoptions and rejections and a precursor to later conflicts over the spread of American consumer culture A truly global account Hollywood's Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U S soft power **Private Eye**, 1987 *Film - An International Bibliography* Malte Hagener, Michael Töteberg, 2016-12-16 Kommentierte Bibliografie Sie gibt Wissenschaftlern Studierenden und Journalisten zuverlässig Auskunft über rund 6000 internationale Veröffentlichungen zum Thema Film und Medien Die vorgestellten Rubriken reichen von Nachschlagewerk über Filmgeschichte bis hin zu Fernsehen Video Multimedia *The Routledge Companion to British Cinema History* I.Q.
