Sandford, 2003 Kayaks of Greenland Harvey Golden, 2006 *Bark Canoes* John Jennings, Tappan Adney, Mariners' Museum (Newport News, Va.), 2004 The definitive reference to indigenous peoples watercraft around the world Tappan Adney 1868-1950 was an artist, writer, ethnographer, historian, and modelmaker of unparalleled ability. He tirelessly documented the cultures and languages of vanishing native cultures. His most enduring legacy is the extraordinary 110 birchbark canoe models he handbuilt to exacting standards. The models, now held at The Mariners Museum in Newport News, Virginia, were built to ensure future canoe builders had exact reproductions for reference. These historically accurate 1:5 scale models were meticulously researched and traditionally constructed using the identical materials of the originals. Many are based on canoes that were the last example of their type. Before such a canoe disintegrated, Adney measured and recorded its dimensions, consulted with native builders, and studied historical photographs and paintings. The canoe models are organized into eight distinct groups: Maritimes, Eastern Woodland, Northwest Lower British Columbia, Fur Trade, Amur Valley, Asia, South America. Each canoe model is beautifully photographed and accompanied by captions that outline the craft's origins, uses, and technical details. Adney's amazing technical drawings for the models are also included. An extensive introduction covers Adney's life and provides information about native model builders, canoe decoration, and fur trade heraldry. *Bark Canoes* is the definitive reference to indigenous and ingenious watercraft used around the world.
