The Capital that Couldn't Stay Put June Oxford,1983      **American Capitals** Christian Montès,2014-01-10 State capitals are an indelible part of the American psyche spatial representations of state power and national identity Learning them by heart is a rite of passage in grade school a pedagogical exercise that emphasizes the importance of committing place names to memory But geographers have yet to analyze state capitals in any depth In *American Capitals* Christian Montès takes us on a well researched journey across America from Augusta to Sacramento Albany to Baton Rouge shedding light along the way on the historical circumstances that led to their appointment their success or failure and their evolution over time While all state capitals have a number of characteristics in common as symbols of the state as embodiments of political power and decision making as public spaces with private interests Montès does not interpret them through a single lens in large part because of the differences in their spatial and historical evolutionary patterns Some have remained small while others have evolved into bustling metropolises and Montès explores the dynamics of change and growth All but eleven state capitals were established in the nineteenth century thirty five before 1861 but rather astonishingly only eight of the fifty states have maintained their original capitals Despite their revered status as the most monumental and historical cities in America capitals come from surprisingly humble beginnings often plagued by instability conflict hostility and corruption Montès reminds us of the period in which they came about an era of pioneer and idealized territorial vision coupled with a still evolving American citizenry and democracy

**The Perfect Capital** Karen Healey Wallace,2013-11-14 Like a Gill inscription itself controlled full of sexual tension human sensitive and with all this rather wild and a bit unsettling Lida Lopes Cardozo Kindersley Maud is dedicated to the art of lettercutting Whilst observing a century old inscription carved by Eric Gill into the outside wall of a London church she is mistaken by Edward for a prostitute She accepts his offer Why does a woman seeking the precision and discipline of perfect letterforms abandon herself so recklessly to the undisciplined and all too imperfect world of Edward What does rich hedonistic city banker Edward see in the purposeful and unmaterialistic woman who is at least ten years older than his normal bedmates and one still pining for her husband from whom she is separated Lettercutting becomes not just a background but an analogy for the search for perfection in an imperfect world Can such shallow beginnings lead to a relationship that carves itself into their souls The answer comes as a surprising end to this powerful and witty debut novel
