Capitalists Caciques And Revolution:

Capitalists, Caciques, and Revolution Mark Wasserman,1984 **A Century of Chicano History** Raul E.

Fernandez,Gilbert G. Gonzalez,2012-11-12 This study argues for a radically new interpretation of the origins and evolution of the ethnic Mexican community across the US This book offers a definitive account of the interdependent histories of the US and Mexico as well as the making of the Chicano population in America The authors link history to contemporary issues emphasizing the overlooked significance of late 19th and 20th century US economic expansionism to Europe in the formation of the Mexican community *Porous Borders* Julian Lim,2017-10-10 With the railroad s arrival in the late nineteenth

century immigrants of all colors rushed to the U S Mexico borderlands transforming the region into a booming international hub of economic and human activity Following the stream of Mexican Chinese and African American migration Julian Lim presents a fresh study of the multiracial intersections of the borderlands where diverse peoples crossed multiple boundaries in search of new economic opportunities and social relations However as these migrants came together in ways that blurred and confounded elite expectations of racial order both the United States and Mexico resorted to increasingly exclusionary immigration policies in order to make the multiracial populations of the borderlands less visible within the body politic and to remove them from the boundaries of national identity altogether Using a variety of English and Spanish language primary sources from both sides of the border Lim reveals how a borderlands region that has traditionally been defined by Mexican Anglo relations was in fact shaped by a diverse population that came together dynamically through work and play in the streets and in homes through war and marriage and in the very act of crossing the border **Colony and Empire** William

G. Robbins,1994 A forceful analysis of the role of capitalism in the history of the American West This is an important contribution to the new western history that should be read by both historians and residents of the American West *Journal of American History* This exciting book should take its place on the shelf next to Patricia Limerick s *The Legacy of Conquest* *Forest Conservation History* **The Border Reader** Gilberto Rosas,Mireya Loza,2023-09-18 The Border Reader brings

together canonical and cutting edge humanities and social science scholarship on the US Mexico border region Spotlighting the vibrancy of border studies from the field s emergence to its enduring significance the essays mobilize feminist queer and critical ethnic studies perspectives to theorize the border as a site of epistemic rupture and knowledge production The chapters speak to how borders exist as regions where people and nation states negotiate power citizenship and questions of empire Among other topics these essays examine the lived experiences of the diverse undocumented people who move through and live in the border region trace the gendered and sexualized experiences of the border show how the US Mexico border has become a site of illegality where immigrant bodies become racialized and excluded and imagine anti and post border futures Foregrounding the interplay of scholarly inquiry and political urgency stemming from the borderlands The Border Reader presents a unique cross section of critical interventions on the region Contributors Leisy J Abrego Gloria E

Visions of the Emerald City Mark Overmyer-Velázquez, 2006-03-22 Explores how elites and commoners in Oaxaca constructed and experienced the process of modernity during President Porfirio Díaz's government

The Quality of Education and Economic Development Stephen P. Heyneman, Daphne Siev White, 1986 Although for many years the emphasis in education was on growth and on the need to provide more classrooms increasing attention has shifted recently toward the quality and value of the education being received This document contains two studies related to the subject of educational quality The first paper reviews the relevant research on this question and reveals that school quality has substantially greater effects on changes in students cognitive and behavioral outcomes in developing than in advanced countries It also finds that school quality seems to affect the lifetime earnings of all students regardless of the level of development of their countries The author concludes that in the long run the quality of schooling provided may be more important for the future economic prospects of developing nations than expanded access to poor quality education Nevertheless knowing that educational quality has an economic effect on development does not determine whether investments in educational quality will be successfully implemented This is the subject of the second study The author argues that educational systems proceed through a series of stages during which they are able to implement increasingly more complex educational investments

Mormons in Mexico F. LaMond Tullis, 1987 *Provinces of the Revolution* Thomas Benjamin, Mark Wasserman, 1990

From Many, One Andrae Micheal Marak, 2009 From Many One examines the Calles government's attempts to centralize control over education in the U S Mexican borderlands region and to transform its rural and indigenous inhabitants into more mainstream Mexicans

Guiding the Invisible Hand Joseph Love, Nils Jacobsen, 1988-09-26 This unprecedented collection combines economic political and intellectual history in its analysis of economic liberalism in Latin America The volume demonstrates the unique and varied features of Latin American liberalism from its formative period up to 1940 and discusses its relation to state formation The essays range from a continent wide comparison to an in depth local study from tariff and industrialization policies of central states to the selective liberal convictions of traditional estate owners The contributors consider the social bases of economic liberalism in the region and their relation to imperialism and to economic dependency Questions of the strength and the staying power of economic liberalism are considered In addition the late appearance of serious alternative policies are treated

Development and Underdevelopment in America Walther L. Bernecker, Hans Werner Tobler, 1993 Twelve American and European authors in the fields of History Economic History and Economics question traditional interpretations and offer new approaches

Historical Abstracts, 1989 Cuban Émigrés, Mexican

Politics and the Cuban Questions, 1895-1899 Dalia Antonia Muller, 2007 **The Making of the Mexican Border** Juan Mora-Torres, 2001-10 In this history of the state of Nuevo Leon Juan Mora Torres explores how 19th century economic and political conditions transformed northern Mexico into a region with distinct features that set it apart from the interior of Mexico arguing the years between the establishment of the U S Mexico boundary in 1848 and the outbreak of the Mexican Revolution in 1910 constitute a critical period in Mexican history *Mexico's Political Awakening* Vikram K. Chand, 2001 A bottom up perspective on democratization correcting analyses that view the process in Mexico as flowing down from the President The author challenges existing theories by stressing the importance of strong social institutions for the development of democracy Decentering the Regime Jeffrey W. Rubin, 1997 An ethnographic analysis of popular politics and the pursuit of democracy in Juchitan Mexico **Finance and Oligarchy** Noel H. Maurer, 1997 El Paso Wilbert H. Timmons, 2004 **Culture of Empire** Gilbert G. González, 2004 Gilbert G González traces the development of the culture of empire and its effects on U S attitudes and policies toward Mexican immigrants
