The World's Greatest Explorers William Scheller, 1992-06-01. Relates the enterprises and discoveries of twelve explorers including Vasco da Gama, Captain James Cook and Roald Amundsen.

Great Explorers John Burstein, 2002. From the publishers of *The World Almanac*, here is the most authoritative series for young readers on the explorers who have changed our world. These clearly written and exhaustively researched accounts of the lives and impact of some of the world's greatest explorers address a variety of questions and issues surrounding these adventurers. Enriched with primary source documents to make history come alive for today's students and lavishly illustrated with paintings, prints, and artifacts from each explorer's own times, each volume is written to capture the drama of the great journeys of exploration. Maps and time lines enhance the learning experience, and Did You Know fact boxes highlight fascinating and fun information that students will enjoy reading.

20 Greatest Explorers of The World Kalyani Mookherji, 2014-01-01. The urge to explore is an ancient one in the human species. The earliest explorations were driven by physical needs like food and shelter. But later, with greater resources at their disposal, human beings became curious about their extended geographical environment and began to venture further from their safe zone. Over time, mankind began to recognize that with successful exploration came rewards. In fact, access to virgin natural resources was one of the driving factors behind the Golden Age of Exploration during the 15th and 16th centuries, when many significant discoveries were made about the geography of the Earth. Again, in the eighteenth and nineteenth centuries, much of the exploration of Africa and Asia was driven by the need to discover and colonize new markets for goods made by European countries. *The 20 Greatest Explorers of the World* traces these currents in the journey of human exploration by focusing on the most famous explorers in history, as well as some lesser-known names who are nevertheless responsible for charting new territories. Ranging from classical Greece to the mid-twentieth century, traversing all parts of the globe and indeed beyond, these explorers are testament to the fact that the desire to know and discover has inspired humans across time and space in history.

In Search of Captain Cook Dan O'Sullivan, 2008. Captain James Cook was the greatest explorer of his age, perhaps of any age. He was a leader of men, a master voyager who journeyed to unknown places, a seeker of knowledge who commanded three demanding scientific expeditions. He and his crews had encounters with peoples of the South Seas which could lead to mutual respect and trade, but also to misunderstanding and violence. Even before he died, his exploits were widely admired. But his death at the hands of Hawaiians turned him into a legendary figure, a hero of the Enlightenment who was said to have brought civilization to the Pacific while giving up his own life in the process. Yet despite everything that is known about Cook's life and many adventures, the man himself remains shrouded in mystery. With this book, Dan O'Sullivan seeks to put this right and casts vivid light on Cook's character, teasing out his personality from the pages of his own journals. As well as an original and illuminating re-examination of Cook's complex character, this is

also a vivid introduction to his life and times which is essential reading for anyone with an interest in this incomparable sea captain Bloomsbury Publishing *Captain Cook's Three Voyages Round the World* James Cook,1882 **The Fatal Voyage** Peter Aughton,2005 It is no longer possible for any ship to cross the Pacific Ocean without encountering the ghost of Captain Cook and his voyages are the stuff of maritime legend
