McGann, Anna Viden, Jillian Rafferty, 2014-07-07 Across the globe there are more than four thousand policy institutes or think tanks that research or advocate for economic and social development Yet the relationship between these organizations and the policies they influence is not well understood How Think Tanks Shape Social Development Policies examines case studies drawn from a range of political and economic systems worldwide to provide a detailed understanding of how think tanks can have an impact on issues such as education policy infrastructure environment and sustainable development economic reform poverty alleviation agricultural and land development and social policy Each chapter provides an overview of the approaches and organizational structures of specific think tanks as well as the political economic and social opportunities and the challenges of the environments in which they operate The contributors study the stages of innovative think tank aided strategies implemented in highly industrialized world powers like the United States and Russia emerging countries such as China India Brazil and South Korea and developing nations that include Ethiopia Kenya and Tanzania Accompanied by an extensive introduction to contextualize the history and theory of policy institutes this comprehensive comparison of policy success stories will be instructive and transferable to other think tanks around the globe Contributors Assefa Admassie Celso Castro Kristina Costa Francisco Cravioto Marek Dabrowski Matt Dann He Fan Rajeev Gowda Oh Seok Hyun Christian Koch Jitinder Kohli R Andreas Kraemer Elena Lazarou William Lyakurwa Ashwin Mahesh Florencia Mezzadra Partha Mukhopadhyay Mcebisi Ndletyana Sridhar Pabbisetty Miguel Pulido Marco Aurelio Ruediger Mar a Bel n S nchez Dmitri Trenin Samuel Wangwe Vanesa Weyrauch Maria Monica Wihardja Rebecca Winthrop Wang Xiaoyi *The RAND Corporation (1989-2009)* J. **Think Tanks and the Production of Policy-knowledge in America** Thomas Matthew Medvetz, 2007

**Ideas and Politics in Social Science Research** Daniel Beland, Robert Henry Cox, 2010-12-10 Writing about ideas John Maynard Keynes noted that they are more powerful than is commonly understood Indeed the world is ruled by little else One would expect therefore that political science a discipline that focuses specifically on the nature of power would have a healthy respect for the role of ideas However for a variety of reasons not least of which is the influence of rational choice theory which presumes that individuals are self maximizing rational actors this is not the case and the literature on the topic is fairly thin As the stellar cast of contributors to this volume show ideas are in fact powerful shapers of political and social life

In *Ideas and Politics in Social Science Research* Daniel Beland and Robert Henry Cox have gathered leading scholars from a variety of subdisciplines in political science and sociology to provide a general overview of the theoretical empirical and methodological issues raised by social science research on ideas and politics Throughout they hone in on three central questions What is the theoretical basis for studying ideas in politics What are the best methods What sort of empirical puzzles can be solved by examining ideas and related phenomena such as discourse policy paradigms and framing processes In sum this is a state of the art academic work on both the role of ideas in politics and the analytical utility that derives from studying them

**From Thatcher to the Third Way** Robert Carl Blank, 2003 This book is an attempt to highlight the meaning of think tanks and public intellectuals in the world of politics Think tanks have been acting as political agents for the last three decades mostly in the background However the importance of these think tanks in the world of politics especially in disseminating ideas and developing governmental projects has been rarely discussed How are these institutions embedded in socio political projects of our governments What is the role of the single public intellectual who works for the think tank Do they influence or even set governmental agendas on certain issues Further to what degree do they influence public opinion The author demonstrates the central role of two think tanks in Great Britain Demos and the Institute of Public Policy Research IPPR and their respective public intellectuals in helping define a project for the New Left and the Labour Party in the early 90s He further demonstrates in depth how both think tanks became part of Tony Blair s ambitions for a project after his succession to power

in 97 how both repositioned themselves politically along the way and how both have been playing into the minutiae of politics since then In depth research including 29 interviews with think tankers and political advisers makes this book a lively insight into the world of think tanks and the battle of ideas in Great Britain after the Cold War Blank goes back all the way to the analyses of Thatcherism in the Marxism Today circle and the debates of the British Left around alternative projects from New Times to a British Third Way

**Thinking the Unthinkable** Branka Andjelković,2003 The challenges of constructing effective governance systems in Central and South Eastern Europe during the past decade have been extensive This publication looks at the linkages between these challenges and the experiences and best practices that have emerged as well as the contributions of think tanks to government capacity It is divided into three sections The first part reviews a number of tools that can be used to stimulate a more institutionalized strategic thinking process in governments using both the available capacities inside government structures and the inputs by civil society organizations The second part reflects on the strengths and weaknesses of civil society organizations and think tanks as providers of inputs to policy makers In its third and final part the publication includes a case study of the application of Early Warning System as a specific tool to bring together government and civil society capacities in the context of South Eastern Europe

**Beyond Machiavelli** Beryl A. Radin,2000 Comparing policy analysis in the 1960s when it was created with its practice in the 1990s Beryl A Radin analyzes the transformations the profession has undergone since its birth and offers a provocative conception of its practice today Radin explores the significant changes that have taken place in the field including attitudes toward politics skills and methodologies required views about information and data and shifts in modes of decision making While some argue that the 1960s were the golden day of the profession when decision makers listened to experts Radin argues that the earlier version of the field held to traditions of elitism and secrecy and that policy analysis in the 1990s pluralistic and open is a more democratic American profession

**Strategien, Management und Organisation Politikorientierter Forschungsinstitute** Josef Braml,2004 Think Tanks have been debated not only in academics but also in politics The study by Braml analyzes central theses and is based on an empirical survey within 430 Think Tanks as well as elaborate expert interviews with the heads of the 40 most influential institutes in the US and in Germany

*Policy Transfer in Global Perspective* Mark Evans,2004 The world of public policy is becoming increasingly small due to dramatic changes in global communications political and economic institutional structures and to nation states themselves This book evaluates the implications of these changes and challenges for both the study and the practice of policy transfer and provides a unique understanding of the relationship between systemic globalizing forces and the increasing scope and intensity of policy transfer activity It provides an explanation of policy transfer as a process of organizational learning an insight into how and why such processes are studied by policy scientists an evaluation of its use by policy practitioners and the first published collection of policy transfer case studies between developed countries from developed to developing countries and from
