From a Reading Book to a Structuralized Canonical Collection Szabolcs Anzelm Szuromi, 2010-01-01. The formation or developing process of the Ivonian work, i.e. *Decretum Panormia Tripartita*, is an emblematic example for the proper textual history of Medieval Canonical Collections before the late 12th century. The recent studies concerning the Pre-Gratian canon law collections show well how the earlier meaning of canonical collection differs from its classical meaning. The fundamental intention was to summarize the whole of canon law which as *ius sacrum* served the daily life of the Church and was useful in every field of the ecclesiastical activity. The textual families of Ivo's canonical work and the textual variants of these families demonstrate well this intention. In this present volume are described several 11th-12th century manuscripts and fragments of the Ivonian canon law collection. The precise paleographical, codicological and textual critical analysis which was done by the author has improved the considerations on the step-by-step textual development. These new results have shown in new light Ivo's compiling work.

General Legislation in the New Code of Canon Law Henry Amans Ayrinhac, 1923. *An Introduction to Canon Law* James A. Coriden, 1991. This new edition of *An Introduction to Canon Law* has been updated to reflect changes and adaptations in canon law as well as to uncover new resources in the field. It offers an introductory orientation to all of canon law; it outlines and overviews the various specialized areas of the law and it sketches the structure and function of the offices within the church and how they relate to one another. The book gives historical perspectives and focuses on the rights and duties of Catholics in the church.
